Re: PUC Docket No. 41606; Joint Application of Electric Transmission Texas, LLC and Sharyland Utilities, L.P. to Amend Their Certificates of Convenience and Necessity for the Proposed North Edinburg to Loma Alta Double-Circuit 345 kV Transmission Line in Hidalgo and Cameron Counties, Texas ("Cross Valley Project")

Dear Property Owner:

We enjoyed meeting with you regarding the above mentioned PUC matter and discussing possible representation regarding the proposed routes for the new transmission line. While we truly appreciate your interest in our firm, we are not able to represent you in this matter. As we discussed at the meetings, we can only represent property owners that are similarly aligned, and unfortunately, we do not believe representation of your property would be similarly aligned or in the best interest of the clients we currently represent.

You should be aware that the law provides limited time periods in which to assert certain claims before the PUC. Because time is always important, and could possibly be short in your case, we strongly recommend that you immediately contact another attorney for assistance. This firm has not, and does not, express any opinion on the validity of your position. You should not refrain from seeking legal assistance because of this firm's decision not to represent you.

To our knowledge you have not furnished us any information that could be considered confidential. If you disagree, please identify any such confidential material so that we may return it to you or otherwise dispose of it according to your directions. Since we have not assumed representation of you, we are not charging any fees or expenses.

Thank you for the opportunity to present our firm's credentials and experience. Please do not hesitate to contact us if we can ever assist you in the future.
