I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- ☒ I am a party to the case;
- ☒ I am required to respond to all discovery requests from other parties in the case;
- ☒ If I file testimony, I may be cross-examined in the hearing;
- ☒ If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- ☒ I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

- ☐ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☒ Other. Please describe and provide comments. You may attach a separate page, if necessary. The maps provided by ETT do not provide sufficient details on properties. However, it appears that route 136a crosses our property. This property is leased to a large oilfield service company that has numerous employees, heavy equipment, trucks, service trucks, high lift cranes, and winch trucks that have "A frame" gen poles that lift equipment high such as pipes

and equipment. This property currently has one transmission crossing the property and we do not need another large transmission line crossing over. This proposed line may affect their operations and they do not need another obstacle that would make them relocate their facility. This would affect our business due to the loss of income. If a line must cross in the area, we are in favor of line 135, eliminating the need for line 136a.
