Re: Request to Intervene in PUC Docket No. 41606

Dear Sirs,

The Harlingen Irrigation District Cameron County Number One and The Adams Gardens Irrigation District Number 19 own and maintain an irrigation and drainage system that will be impacted by several of your proposed routes. Our system consists of numerous structures including elevated irrigation canals, drainage ditches, underground pipelines, storage reservoirs, ponds and lakes, roads for access and maintenance, blanket easements and rights of ways for necessary maintenance and expansion and improvement of our system. Some of our rights of way are not being used at the time but will be needed in the future whether foreseeable or unforeseeable. Then again, some of our rights of way and easements are surplus and can be shared or conveyed. We would be more than happy to work with you but will have to take each circumstance on an individual basis and coordinate closely with your assigns. At this time I will enter a Request to Intervene in PUC Docket No. 41606 on behalf of The Harlingen Irrigation District Cameron County Number One and The Adams irrigation District Number 19. Attached please find: Request for Intervention form and 10 copies, copy of map showing approximate District boundary and Map of the Harlingen and Adams Gardens Irrigation Districts. Thank you for your cooperation and feel free to contact our office if we can be of further assistance.

Sincerely,

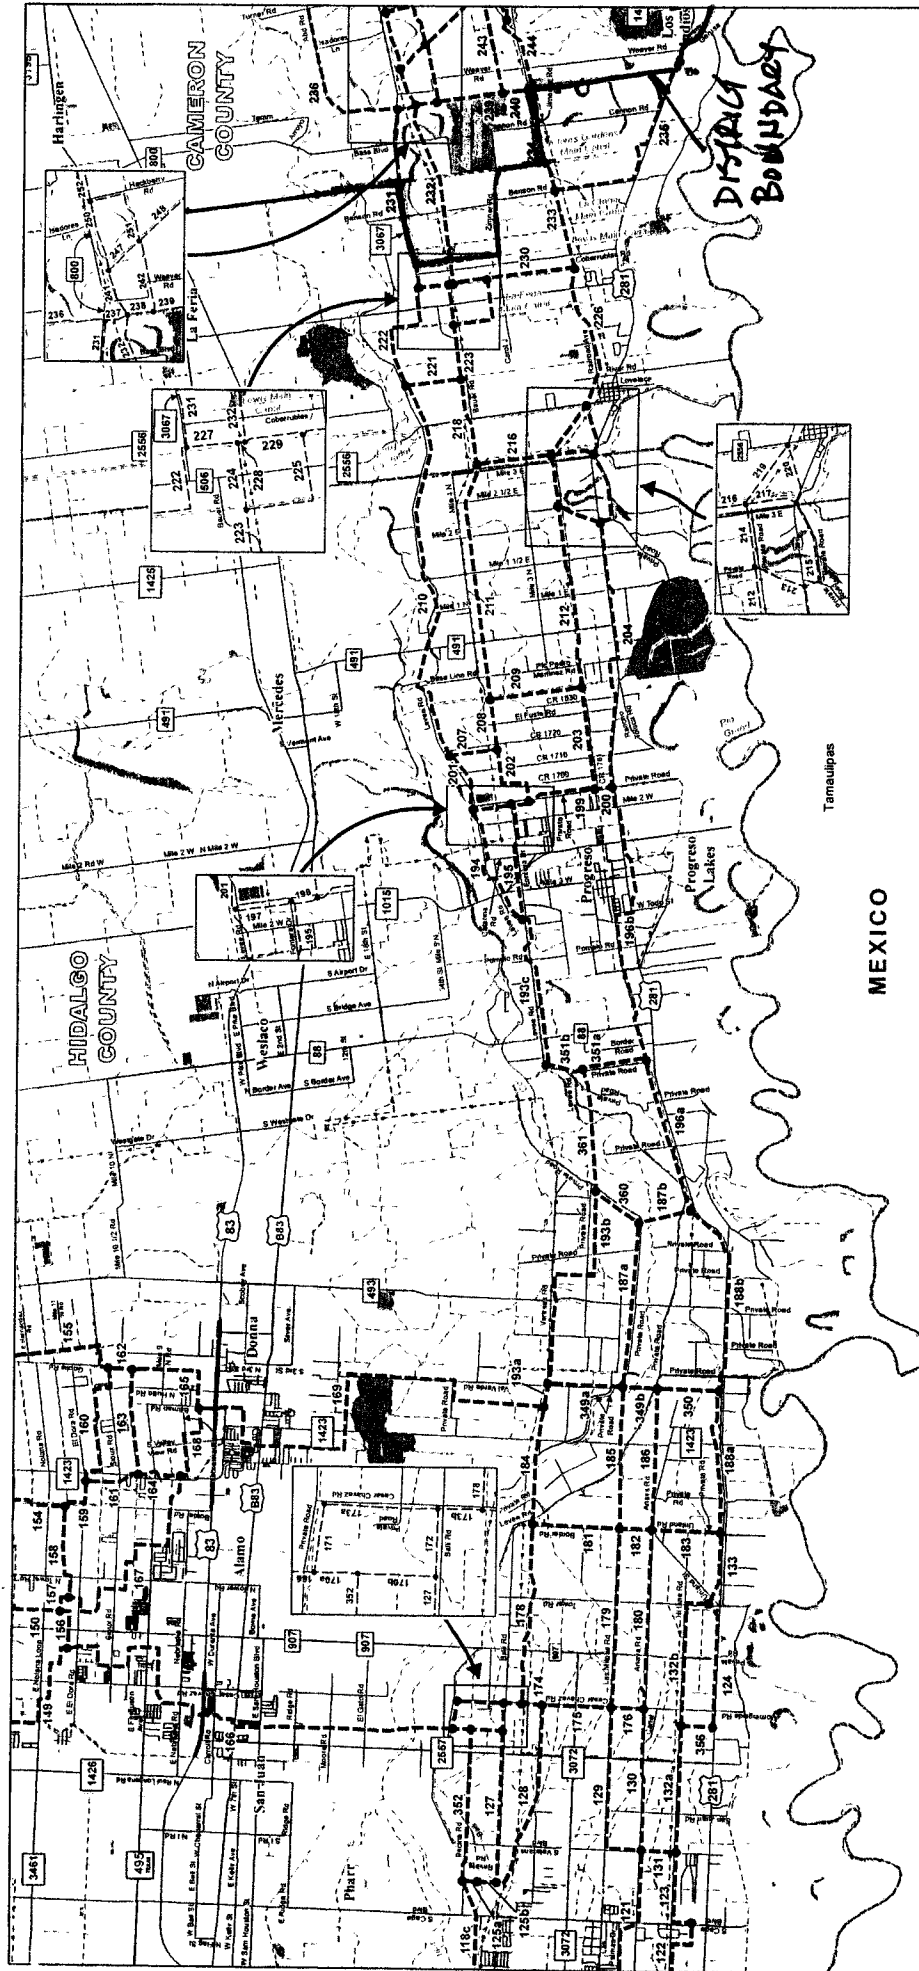

Daniel Villafranco
