PUBLIC UTILITY COMMISSION
FILING CLERK

Chairman Nelson:

We moved to Frisco about 2 ½ years ago and love it here. We understand that Brazos Electric wants to route high voltage lines and towers through the town, visible from our house, resulting in lower property values. This is totally unnecessary. There are better alternatives, primarily using existing towers, and burying the lines underground. We also understand that there is time before this must be done, so the decision should not be rushed.

We also ask that the PUC hold an open hearing on this matter in Frisco.

Thank you for your consideration.

Sincerely,

Jeanette Wollitz
