Re: Tariff Control No. 42234 *Application of Poka Lambro Telephone Cooperative, Inc. for Administrative Member Services Tariff Revisions*

Dear Filing Clerk:

On behalf of Poka Lambro Telephone Cooperative, Inc. ("Applicant"), I am providing an original and six (6) copies of the Applicant's Member Services Tariff pages containing proposed revisions to modify the Call Forward-Busy calling feature description. The enclosed revisions do not result in any changes to the charges imposed on the Applicant's customers; therefore no customers are affected by the revisions submitted herein.

Thank you for your assistance in this matter. Please file-stamp the enclosed pages and return them via courier. Any questions or comments may be directed to me at the above-listed address and telephone number.

Sincerely,

Cindy Neugebauer
Authorized Representative for
Poka Lambro Telephone Cooperative, Inc.

**MEMBER SERVICES TARIFF
MISCELLANEOUS SERVICE ARRANGEMENTS**

X. ADVANCED CALLING SERVICES (continued)

B. Feature Descriptions (continued)

5. Preferred Call Forwarding - Enables the customer to forward incoming calls from a maximum of six (6) specified telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The telephone company's equipment will screen incoming calls against the customer's list and forward only calls from telephone numbers included on the list. Calls forwarded by this feature are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

6. Call Blocker - Enables customers to block the last incoming call or calls from a maximum of six (6) specified telephone numbers. To block specified telephone numbers, the customer can construct or modify a telephone number screening list by dialing a unique code. The telephone company's equipment will screen incoming calls against the customer's list and block those on the list. If facilities are unavailable to provide incoming call blocker via the customer's list, standard call completion will occur. To block unknown telephone numbers, a customer can dial a special code after an unwanted call and block the number. Callers whose numbers are blocked are directed to a telephone company recorded announcement.

7. Special Call Acceptance - Enables a customer to designate a maximum of six (6) telephone numbers from which calls will be accepted. The customer can construct or modify a telephone number a screening list by dialing a unique code. The telephone company's equipment will screen incoming calls against the customer's list and complete calls from numbers on the customer's list. Calls from all other numbers will be routed to a recorded announcement.

8. Anonymous Call Rejection (ACR) - Allows subscribers to automatically reject all calls that have been "blocked," and therefore marked anonymous by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

9. Call Forwarding-Busy/Don't Answer - Allows an incoming call to the customer's line to be automatically forwarded to a preselected telephone number within the exchange or on the long distance telecommunications network when the line encounters a busy condition and is not answered after a pre-determined number of ringing cycles. Any toll charges generated by the use of this feature will be charged to the Call Forwarding customer.
