RE: PROJECT NO. 42395 – *Application of WM Renewable Energy, L.L.C. for Renewable Energy Credit Generator Certification*

### **CORRECTED NOTICE OF APPROVAL**

On April 30 2014, a Notice of Approval in this matter was entered (NOA). However, on May 7, 2014, Commission Staff responded to and requested correction of the NOA. Specifically, Commission Staff stated that the NOA incorrectly referenced WM Renewable Energy, LLC's (WM Renewable) power generation registration number 20161 for certification of its DFW Gas Plant facility as a Renewable Energy Credit (REC) generator; and that the NOA should have referenced Bio-Energy Partners self-generator registration number 70002.

Commission Staff's initial recommendation of approval did not make clear that Bio-Energy Partners had been purchased by WM Renewable; and thus, that WM Renewable was only the representative applicant for this proceeding. Bio-Energy Partners was not mentioned in the original application or Commission Staff's initial recommendation. Nonetheless, Commission Staff's request to the amend the NOA is granted and WM Renewable's DFW Gas Plant facility is approved as a REC generator under Bio-Energy Partner's self-generator registration number 70002.

SIGNED AT AUSTIN, TEXAS the 7<sup>th</sup> day of May 2014.
