VIA HAND-DELIVERY

Re: PUC Docket No. 42933: Application of Manville Water Supply Corporation and Lakeside Water Control and Improvement District 2B ("**District**") for Approval of a Service Agreement in Travis County (37794-C)

Dear Administrative Law Judge Goodson:

On January 5, 2016, Public Utility Commission ("**PUC**") Staff filed its Response to PUC Order No. 8 indicating that the above-referenced application was administratively incomplete and deficient. On January 6, 2016, Order No. 9 was issued, affirming the PUC's Staff's findings and requiring the District to cure such deficiencies by February 8, 2016. Accordingly, the District submits the following responses to address the issues raised by PUC Staff regarding administrative completeness. The District will address the technical review deficiencies upon notification of administrative completeness. The following items are delineated in Commission Staff's Memorandum:

Mapping Content

- The Applicant's revised digital data received on December 4, 2015, appears to include the same digital data that was submitted on October 1, 2015. Therefore, Staff is unable to use the digital data to determine if the proposed water and sewer service areas are accurately located as shown on the large scale map. Also, staff is unable to determine if the digital data was revised to remove the overlap with the corporate boundaries of the City of Pflugerville.

RESPONSE: The District is providing revised digital data, attached as Attachment A.
