I am a customer of North Orange
Water & Sewer LLC D/B/A Country Square
water & sewer. I was paying about \$74
a month. They have raised rates once this
year, and now my bill is about \$94.

I am on disability and work parttime
to make ends meet. We are charged \$50
before we even use any water and then
pay for what we use.

If I understand correctly they are
wanting to raise the rates again.
This will really affect my finances. My
water bill is almost as much as my
electric bill

I hope the rates do not go up again.

Sincerely
Patricia S. Harding
