Re: Application from the City of Thrall, to Amend Certificate of Convenience and Necessity (CCN) No. 13063, in Williamson County; Application No. 36627-C

CN: 600735245; RN: 101387751

Dear Mayor Marx:

Your application for the City of Thrall, to amend the CCN was received on January 28, 2010, and has been accepted for filing. Thank you for providing the items we requested with your February 26, 2010, letter. Ms. Sheresia Perryman has been assigned to perform the technical review.

Your next step is to provide the **revised** public notices without delay. The notice to the public must be published once each week for two (2) consecutive weeks in a newspaper of general circulation in Williamson County. It is the responsibility of the applicant to provide correct notice of the application to any utilities and cities within two (2) miles of your proposed service area, any city with an extraterritorial jurisdiction which overlaps the proposed service area or other affected parties in your requested area. You will also be required to provide mailed notice to all landowners with more than 25 acres in your proposed CCN area pursuant to TCEQ 30 TAC Chapter 291 Rules adopted on January 5, 2006. The landowner information may be obtained from the county appraisal district tax rolls for the county or counties in which the proposed CCN lies. Check the notices carefully before mailing or publishing.

A review of our files and maps indicates that, **in addition to the neighboring utilities noted on your application, you must provide notice to the following entity:**

Williamson County

Information related to utilities and districts including addresses can be obtained from the TCEQ web site located at [www10.tceq.state.tx.us/iwud](http://www10.tceq.state.tx.us/iwud).

As proof that notice was provided, you are required to send us the following:

- a) an original and three copies of a publisher's affidavit of the newspaper publication with tear sheets of the published notice attached;
- b) four copies of each individual notice and map sent to neighboring utilities and affected parties;.
- c) four copies of notice and map sent to each landowner; and
- d) an original and three copies of the signed affidavits that individual notice to neighboring utilities, affected individuals and each landowner has been given. (Copies of the Affidavit forms are enclosed with this letter.)

Please be sure to include a map showing the proposed service area with your individual notices to neighboring utilities, other affected parties and each landowner. It is the applicant's burden to provide an accurate map delineating the proposed area with each individual notice.

After further technical review additional financial, technical or other information may also be requested through future correspondence.

These items must be completed and returned to our office by April 9, 2010. Processing of this application cannot proceed until the close of the 30 day public comment period which begins after all the required notices have been given. If we do not receive the requested information by this date, your application will be returned for failure to prosecute.

If you have any questions, please contact Ms. Sheresia Perryman at 512/239-3654, or if by correspondence, include Mail Code 153 in the letterhead address.
