Dear Ms. Futch,

Thank you for writing to the office of the Texas Comptroller of Public Accounts.

As of May 6, 2013, the Comptroller's office discontinued providing certificates of good standing. However, you can print the Franchise Tax Search Results page that shows the status of the account as of the date of the search.

<https://mycpa.cpa.state.tx.us/coa/index.html>

Let me know if I can be of any further assistance.

This opinion is based on the information presented in your inquiry. Other facts, though similar, may yield different results.

Sincerely,

Lori Moya

Subject: Certificate of Account Status

I have been asked to provide a certificate of account status from the Texas Comptroller of Public

11/15/2013

Accounts. This is in regard to a change in our CCN #11605. We need to provide the certificate of account status to our consulting engineer. I would so appreciate it if you could help me with this.

Thank you for any assistance you may be able to provide. I appreciate the effort.

BAYLOR WATER SUPPLY CORPORATION

CCN AMENDMENT APPLICATION

ATTACHMENT PARTS "2-B"

UTILITIES & DISTRICTS
SECTION

2B.

The proposed service area consists of mainly farm and rangeland and is very sparsely populated. The proposed service areas (those not already served by Baylor WSC) currently have no domestic water service. Landowners depend on private water wells or in some cases are forced to haul water to provide domestic water for their residences. Also, it is very common that current water customers have additional meters to provide stock water for cattle. As drought conditions persist in this region residents and landowners are seeking additional dependable water sources for domestic and agricultural use. Also, Baylor WSC is in the process of constructing a new water line to connect their existing distribution system with the North Central Texas Municipal Water Authority (NCTMWA) water treatment plant (WTP). The new 10 inch transmission line will run from the NCTMWA WTP at Millers Creek Reservoir approximately 40,000 linear feet north to Baylor's distribution system. The line will be located in the proposed area of CCN expansion shown in detail F on the attached maps. Baylor WSC would like to be able to serve customers in this area off the 10 inch transmission line. Baylor WSC estimates that 7 new customers will request service in the new proposed expansion areas which are not currently served. The WSC is in the process of obtaining written request forms from these individuals.

BAYLOR WATER SUPPLY CORPORATION

CCN AMENDMENT APPLICATION

ATTACHMENT PART "5-G"

5G

Due to the sparse population in the proposed service areas it is not expected that these service area additions will have any significant economic impacts on the Water Supply Corporation. The additional service areas would have a positive impact on landowners in the requested area by providing a public domestic water source which is currently not available. These landowners depend on private water wells which during persistent drought conditions may not provide adequate production for the resident. During these times the resident may be forced to haul water to their homes if their water well productions significantly decline. Also, many of these residents are in the cattle industry and could use this water service as a supplemental water source for their livestock in areas where groundwater is not available.
