NOTICE OF DEFICIENCY

Re: Application from City of Lyford to Obtain a Water Certificate of Convenience and Necessity (CCN) in Willacy County; Application No. 33790-C

Application from City of Lyford to Obtain a Sewer Certificate of Convenience and Necessity (CCN) in Willacy County; Application No. 33791-C

Dear Mr. Badeaux:

An acceptance letter for filing of your CCN application was sent on February 28, 2002. A deadline of March 29, 2002 was provided to complete the notice requirements for further processing of your application. As of this time, proper notice verification has not been received.

In order to process this application, the notice to the public must be published once each week for two (2) consecutive weeks in a newspaper of general circulation in Willacy County. It is the responsibility of the applicant to provide notice of the application to any utilities within two (2) miles of your proposed service area, any city with an extraterritorial jurisdiction which overlaps the proposed service area, customers, or other affected parties in your requested area.

A review of our files and maps indicates that, in addition to the neighboring utilities noted on your application, you must provide notice to the following utilities:

City of Raymondville, CCN Nos. 10542 and 20215
Sebastian Municipal Utility District, CCN Nos. 11462 and 20790

As proof that notice was provided, you are required to send us the following:

- a) an original and three copies of a publisher's affidavit of the newspaper publication with tear sheets of the published notice attached;

14

Mr. Don R. Badeaux

Page 2

- b) four copies of each individual notice to neighboring utilities and other affected parties;
- c) an original and three copies of the signed affidavits that individual notice to neighboring utilities and affected individuals has been given. (Copies of the Affidavit forms are attached to this letter.)

In addition, the small scale location map shows greater area than the detailed map submitted with the application. Please clarify the south boundary of the proposed area or submit a new detailed map showing the proposed boundaries. If the proposed boundaries are greater than the revised notice boundaries the notices should include the new proposed boundaries.

Also, the proposed area appears to include area outside the current corporate limits. Please provide a copy of a map submitted with your application showing the location of all the current and proposed connections outside the corporate limits of the City of Lyford.

These items must be completed and returned by **May 30, 2002**. Failure to provide notice will result in your application being returned for failure to proceed.

If you have any questions, please contact me at 512/239-0963, or if by correspondence, include MC 153 in the letterhead address.

Sincerely,

Brian Dickey
Utilities & Districts Section
Water Supply Division
