RE: Notice of the City of Lyford's Application for Certificate of Convenience and Necessity (CCN) to Provide Water and Sewer Utility Service in Willacy County

The North Alamo Water Supply Corporation is opposed to dual certification within its Water CCN service area as shown on the map enclosed with the above notice. The Corporation considers this a "taking" of its service area that is prohibited under federal statutes USC 7 1926(b). The Corporation does not oppose that portion of the City's proposed water and sewer service CCN application for the non-certificated area northeast of the City. The Corporation requests a public hearing, subject to the City making the above adjustments in its CCN application. You may contact me at the above address and phone number.

Sincerely,

Charles Browning
Charles Browning
