Dear Madam or Sir:

This firm represents the Southwest Fannin County Special Utility District (SWFCSUD). Please accept this letter as the SWFCSUD's notice of its opposition and its request for a public hearing regarding the above referenced application submitted by the City of Bonham. In accordance with the notice submitted by City of Bonham, SWFCSUD provides the following information:

1. SWFCSUD may be notified of any developments in this case by providing notice to:

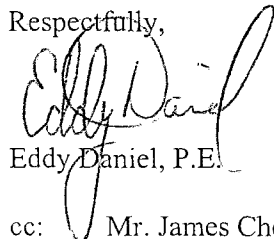

Eddy Daniel, P.E.
Daniel & Brown Inc.
PO Box 606
Farmersville, TX 75442
972-784-7777

and

James Cheek
Southwest Fannin County SUD
8046 West Hwy 56
Savoy, TX 75479
903-965-5316

2. Applicant information: *Application of City of Bonham to amend CCN No. 11186 for Water Certification of Convenience and Necessity (CCN) to provide water utility service in Fannin County.*
3. SWFCSUD requests a public hearing on the above referenced application.
4. SWFCSUD will be adversely affected by this application because the area requested (1) contains current SWFCSUD retail water service customers and facilities; (2) contains SWFCSUD TCEQ certificated area; (3) contains the site of a future SWFCSUD water production facility; and (4) the filed City of Bonham dual certification boundaries are different from the originally proposed City of Bonham dual certification boundaries.
5. The revision of the boundaries of the filed application to the originally proposed City of Bonham dual certification boundaries as proposed on April 14, 2005 will resolve SWFCSUD concerns.

Respectfully,

Eddy Daniel, P.E.

We have received a letter from you regarding CCN Nos. 11186 and 20460. We were the only ones in a neighborhood of ten who received this letter and upon checking with other people living in the area, there were very few who had received this letter; my question to you is why did only small amount of people receive this? We have asked about 150 local residents about this, and we find out of that number we have heard only 3 people who knew of the letter.

We have checked with several City of Bonham departments as well as White Shed Water trying to find out what the impact of these CCNs will be on our neighborhood, Bonham and the surrounding area. We have received different answers from each group and no one really seems to know what this is all about. We have heard the following explanations:

- From Glenn Taylor City Council, Ward 4. He talked to the City Manager and was told that this was an administration process started by a staff who had left the City, but it was only to protect the City rights to water and sewer.
- The City of Bonham is doing this to protect its water rights from outside sources coming in and supplying water to new developments
- The City of Bonham is doing this to keep developers from digging wells and not providing piping to city standards.
- From John W Burnett, City Council, Ward 1. This was only a process to help the city increase the Bonham Water Supply, by building a new lake, and maintaining control of the water. This would aid in building a larger Water Treatment plant in Bonham.
- There are plans to build a new lake in Fannin County

In regard to the sewer system, we could not get any knowledgeable answers.

We are currently with White Shed water and are very happy with it. We would appreciate it if you could explain to us what the impact of these CCNs is.

Any information you can give us will be greatly appreciated.

Sincerely,

Larry D. Wilson, Barbara J. Wilson

To: Texas Commission on Environmental Quality

This letter is in reference to the City of Bonham's Application to amend CCN Nos. 11186 and 20460 and to obtain dual certifications with portions of Southwest Fannin County SUD and Whitheshed Water Supply Corporation.

We request a public hearing to voice our objections and concerns to any action the City of Bonham is attempting to make. We live 4 miles from the city limits of Bonham and have no desire to be associated with the city or any of its services. We currently have Whitheshed water and an Aerobic sewer system and have no need for anything the city can offer. There is no feasible way that the city could ever provide services for the area that they are considering. The cost of providing the system would be more than they could ever recover in fees. I don't know what their plan is, but I do know we do not want to be a part of it.

Notice to Landowners

NOTICE OF APPLICATION FOR CERTIFICATE OF CONVENIENCE AND NECESSITY (CCN)
TO PROVIDE WATER AND SEWER UTILITY SERVICE IN FANNIN COUNTY

To:

Date Notice Mailed: October 31, 2005

GAYLAND GIBBS
JEANA GIBBS
2051 CR 1450
BONHAM, TX 75418-9803

The City of Bonham has filed applications to amend CCN Nos. 11186 and 20460 and to obtain dual certifications with portions of Southwest Fannin County SUD and White Shed Water Supply Corporation and to decertify portions of Bois Darc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water & sewer utility service in Fannin County.

The proposed utility service area is located approximately 4.6 miles north, 1.9 miles south, 1.3 miles east, and 4.2 miles west of downtown Bonham, Texas, and is generally bounded on the north by FM 1753; on the east by Bois Darc Creek; on the south by FM 1629; and on the west by FM 898. See enclosed map of the proposed service area.

The total area being requested for water service includes approximately 16,618 acres and 3,382 current customers. The total area being requested for sewer service includes approximately 16,618 acres and 3,051 current customers.

A request for a public hearing must be in writing. You must state (1) your name, mailing address, and daytime telephone number; (2) the applicant's name, application number or another recognizable reference to this application; (3) the statement, "I/we request a public hearing"; (4) a brief description of how you or the persons you represent, would be adversely affected by the granting of the application for a CCN; and (5) your proposed adjustment to the application or CCN which would satisfy your concerns and cause you to withdraw your request for a hearing.

Persons who wish to intervene or comment should write the:

Texas Commission on Environmental Quality
Water Supply Division
Utilities and Districts Section, MC-153
P. O. Box 13087
Austin, TX 78711-3087

within thirty (30) days from the date of this publication or notice. A public hearing will be held only if a legally sufficient hearing request is received or if the Commission on its own motion requests a hearing. Only those individuals who submit a written hearing request or a written request to be notified if a hearing is set will receive notice if a hearing is scheduled.

If a public hearing is requested, the Executive Director will not issue the CCN and will forward the application to the State Office of Administrative Hearings (SOAH) for a hearing. If no settlement is reached and an evidentiary hearing is held, the SOAH will submit a recommendation to the Commission for final decision. If an evidentiary hearing is held, **RECEIVED** will be a legal proceeding similar to a civil trial in state district court.

Regarding: Application by City of Bonham to amend CCN Nos. 11186 and 20460 and to obtain dual certification with portions of Southwest Fannin County SUD and White Shed Water Supply Corporation and the decertify portions of Bois Darc MUD and Ravena Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water and sewer utility service in Fannin County.

Name: _____ Cynthia Godbey _____

Mailing Address: _____ 1253 CR 4205, Bonham, TX 75418 _____

Daytime Telephone Number: _____ 903-583-6375 _____

I/we request a public hearing.

If this application is granted, I/we will be adversely affected in the following manner:

At considerable expense, we have paid for the installation of water line and purchased a meter from Southwest Fannin SUD who currently services our area. We would not wish now or in the future to have the financial burden of changing water systems and incurring the expense of yet another water meter and service line. We chose to purchase our water from Southwest Fannin SUD because of the quality of the water they provide, and the fact that it is groundwater. Water from the City of Bonham is surface water, and subject to quality changes with the seasons. Surface water is also easily contaminated. The City of Bonham has experienced water quality issues in the past, with trihalomethanes and haloacetic acids violations noted in January 2003. We also question that the City of Bonham has the capacity to support the proposed area of service. If this application is approved, we could be adversely impacted financially, as well as by the quality and availability of the water provided for our use.

The following action(s) will satisfy my/our concerns:

_____ withdrawal of the application to provide water service in our area _____

Re: Application of City of Bonham to amend CCN No. 11186 and 20460 and to obtain dual Certification with portions of Southwest Fannin County SUD and White Shed Water Supply Corporation and to decertify portions of Bois D' Arc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality
To provide water & sewer utility service in Fannin County

Dear Madam or Sir:

Please accept this letter as notice of opposition and a request for a public hearing in Bonham, Texas regarding the above referenced application submitted by the City of Bonham. As a resident living in the area affected by the application submitted by City of Bonham, I believe I deserve a public hearing and a much more detailed explanation of the changes this amendment of the City of Bonham to amend CCN #11186 and 20460 and to obtain dual Certification with portions of Southwest Fannin County SUD and White Shed Water Corporation and to decertify portions of Bois D' Arc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water and sewer utility service in Fannin County would bring to Fannin County.

REQUEST FOR PUBLIC HEARING

Texas Commission on Environmental Quality
Water Supply Division
Utilities and Districts Section, MC-153
P. O. Box 13087
Austin, TX 78711-3087

Regarding: Application by City of Bonham to amend CCN Nos. 11186 and 20460 and to obtain dual certification with portions of Southwest Fannin County SUD and White Shed Water Supply Corporation and the decertify portions of Bois Darc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water and sewer utility service in Fannin County.

Name: Billy C. Cox

Mailing Address: 220 S. Center, Bonham, TX 75418

Daytime Telephone Number: 903-583-4678

I/we request a public hearing.

If this application is granted, I/we will be adversely affected in the following manner:

Property I own is adjacent to the area certified by Southwest Fannin County SUD, with a main line ample to serve any water needs I may have. If I choose to develop my property in the proposed service area, I would not wish to bear the expense of running ½ mile of water line to my property when adequate water service is readily available within a few feet. Water from the City of Bonham is surface water, and subject to quality changes with the seasons. Surface water is also easily contaminated. The City of Bonham has experienced water quality issues in the past, with trihalomethanes and haloacetic acids violations noted in January 2003. I also question that the City of Bonham has the capacity to support the proposed area of service. If this application is approved, I could be adversely impacted financially, as well as by the quality and availability of the water provided for my use.

The following action(s) will satisfy my/our concerns:

withdrawal of the application to provide water service in my area

Daytime Telephone Number: 903-583-2201

I/we request a public hearing.

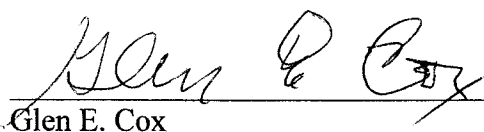

If this application is granted, I/we will be adversely affected in the following manner:

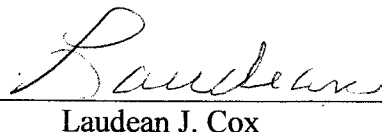

At considerable expense, we have paid for the installation of water line and purchased a meter from Southwest Fannin SUD who currently services our area. We would not wish now or in the future to have the financial burden of changing water systems and incurring the expense of yet another water meter and service line. We chose to purchase our water from Southwest Fannin SUD because of the quality of the water they provide, and the fact that it is groundwater. Water from the City of Bonham is surface water, and subject to quality changes with the seasons. Surface water is also easily contaminated. The City of Bonham has experienced water quality issues in the past, with trihalomethanes and haloacetic acids violations noted in January 2003.

With recent tax base losses, it's questionable that the City of Bonham could demonstrate the financial ability to provide the necessary capital investment to ensure the provision of continuous and adequate service to the customers of the water and sewer system. If this application is approved, we could be adversely impacted financially, as well as by the quality of the water provided for our use.

The following action(s) will satisfy my/our concerns:

From: Elizabeth May
2023 N. Center
Bonham, Texas 75418
(903) 583-2101

Applicant: City of Bonham; Date Notice Mailed: October 31, 2005; Notice of Application for certificate of convenience and necessity (CCN) to provide water and sewer utility service in Fannin County.

Statement: I request a hearing

Adverse Affect: The City of Bonham has had problems supplying safe drinking water in the past. All of the people west of the 121 bypass have been waiting 30 years to get them water and sewer. The City of Bonham is not able to provide service in a timely manner. The City of Bonham water is inadequate and below the standards that our current water is.

Proposed Adjustment: Limit the City of Bonham to ½ mile in each direction from the city.

Dear Madam or Sir:

Please accept this letter as notice of opposition and a request for a public hearing in Bonham, Texas regarding the above referenced application submitted by the City of Bonham. As a resident living in the area affected by the application submitted by City of Bonham, I believe I deserve a public hearing and a much more detailed explanation of the changes this amendment of the City of Bonham to amend CCN #11186 and 20460 and to obtain dual Certification with portions of Southwest Fannin County SUD and White Shed Water Corporation and to decertify portions of Bois D' Arc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water and sewer utility service in Fannin County would bring to Fannin County.

Respectfully,

Gary Wiechman

REQUEST FOR PUBLIC HEARING

Texas Commission on Environmental Quality
Water Supply Division
Utilities and Districts Section, MC-153
P. O. Box 13087
Austin, TX 78711-3087

Regarding: Application by City of Bonham to amend CCN Nos. 11186 and 20460 and to obtain dual certification with portions of Southwest Fannin County SUD and White Shed Water Supply Corporation and the decertify portions of Bois Darc MUD and Ravenna Nunnelee Water Supply Corporation with the Texas Commission on Environmental Quality to provide water and sewer utility service in Fannin County.

Name: Leldon and Barbara Cox
Mailing Address: 1325 CR 4205, Bonham, TX 75418
Daytime Telephone Number: 903-583-4396

I/we request a public hearing.

If this application is granted, I/we will be adversely affected in the following manner:

At considerable expense, we have paid for the installation of water line and purchased a meter from Southwest Fannin SUD who currently services our area. We would not wish now or in the future to have the financial burden of changing water systems and incurring the expense of yet another water meter and service line. We chose to purchase our water from Southwest Fannin SUD because of the quality of the water they provide, and the fact that it is groundwater. Water from the City of Bonham is surface water, and subject to quality changes with the seasons. Surface water is also easily contaminated. The City of Bonham has experienced water quality issues in the past, with trihalomethanes and haloacetic acids violations noted in January 2003.

With recent tax base losses, it's questionable that the City of Bonham could demonstrate the financial ability to provide the necessary capital investment to ensure the provision of continuous and adequate service to the customers of the water and sewer system. If this application is approved, we could be adversely impacted financially, as well as by the quality of the water provided for our use.

The following action(s) will satisfy my/our concerns:

____ withdrawal of the application to provide water service in our area

To Whom this concerns,

Nov. 17, 05

We, Monte and Lorri Furrh, Request a hearing on the proposed CCN,903-583-7562, 570 CR 2510, Bonham, Tx 75418, We are concerned about the water system, and the sewer system from the city of Bonham, We have relatives on this system and they have health issues from it, Also the city can't keep up with or fix the sewer problems they already have in the city, How do they expect to maintain it out of the city, Also we believe it to be a ploy to expand their city limits out as far as they can, If we wanted city water and sewer, We would have bought a place in town, The city of Bonham can keep their problems in the city and leave us alone, I believe the health issues with the water are an adverse of their own, And would adversely effect our health, Plus the cost of all this, And the cost of maintenance of this system, Who is going to foot this bill?

Sincerely,

Monte and Lorri Furrh

I/we request a public hearing.

If this application is granted, I/we will be adversely affected in the following manner:

We/I would not wish now or in the future to have the financial burden of changing water systems and incurring the expense of yet another water meter and service line. We/I find the cost of the Southwest Fannin SUD to be at a more acceptable price than the City of Bonham cost. We/I chose to purchase our water from Southwest Fannin SUD because of the quality of the water they provide, and the fact that it is groundwater. Water from the City of Bonham is surface water, and subject to quality changes with the seasons. Surface water is also easily contaminated. I also have health issues and every time I drink the City of Bonham water I experience gastrointestinal issues that I prefer to not describe. I even have to bring my water to work and drink bottled water at any restaurant in the city of Bonham. My health will be adversely impacted if we/I were to have to use the city of Bonham. The City of Bonham has experienced water quality issues in the past, with trihalomethanes and haloacetic acids violations noted in January 2003. If this application is approved, we/I could be adversely impacted financially and physically, as well as by the quality of the water provided for our use.

The following action(s) will satisfy my/our concerns:

withdrawal of the application to provide water service in our area.

Re: City of Bonham application to amend
CCN #'s 11186 and 20460

We request a public hearing to voice our
concerns in this matter. We oppose this
application.

We moved out of the City of Bonham several
years ago to be able to live in a country
environment. We no longer wished to be
controlled by the City of Bonham. It had gotten to
the point we could not stand to smell the
water much less drink the stuff. We paid
higher taxes and water rates and were not satisfied.
We now have an aerobic sewer system and
provide our own trash disposal. We are satisfied
with the services we now have.

We are concerned this application will eventually
lead to annexation and higher taxes. This is not
what we wanted when we moved to the country.

From: Carrol Brown
P.O. Box 111 (New Address: 1326 CR 2610)
Bonham, Texas 75418
(903) 227-0174

Applicant: City of Bonham; Date Notice Mailed: October 31, 2005; Notice of Application for certificate of convenience and necessity (CCN) to provide water and sewer utility service in Fannin County.

Statement: I request a hearing

Adverse Affect: The City of Bonham has had problems supplying safe drinking water in the past. All of the people west of the 121 bypass have been waiting 30 years to get them water and sewer. The City of Bonham is not able to provide service in a timely manner. The City of Bonham water is inadequate and below the standards that our current water is.

Proposed Adjustment: Limit the City of Bonham to ½ mile in each direction from the city.
