**COMMISSION STAFF'S RESPONSE TO ORDER NO. 9 REGARDING MAPPING AND
CONSOLIDATION OF DOCKETS**

COMES NOW the Staff of the Public Utility Commission of Texas (Staff), representing the public interest, and files this Response to Order No. 9 Regarding Mapping and Consolidation of Dockets. In support thereof, Staff will show the following:

I. Background

On July 26, 2013, Crystal Clear Water Supply Corporation (Crystal Clear) and City of San Marcos (collectively, the Applicants) filed an application for the sale, transfer, or merger of facilities and to amend a certificate of convenience and necessity (CCN) in Comal, Guadalupe, and Hays Counties, held by the City of San Marcos, pursuant to TEX. WATER CODE ANN. §§ 13.246 and 13.301 and 30 TEX. ADMIN. CODE § 291.109 (TAC). On November 9, 2015, the Commission consolidated Docket No. 42984 into this docket because both dockets involve transfers of certificated service area between Crystal Clear and the City of San Marcos: from Crystal Clear to the City of San Marcos in Docket No. 42983 and from the City of San Marcos to Crystal Clear in Docket No. 42984.

Order No. 9 was issued on November 9, 2015 requiring Commission Staff to confirm that the certificates and map provided in Docket No. 42983 cover the amendments and transfers requested in Docket No. 42983 and 42984, file updated certificate(s) and/or updated map(s), or request additional time, if necessary.

II. Request for More Time to Consolidate Mapping

In order to comply with the directive of Order No. 9 to fully consolidate the dockets, Commission Staff will need to prepare additional materials. Due to limited resources and the complexity involved in consolidating the dockets, Commission Staff requests that it have until December 16, 2015 in order to provide a response to Order No. 9.

III. Conclusion

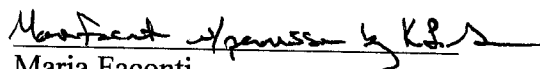

Commission Staff requests additional time in order prepare additional materials to respond to Order No. 9, and that it be granted an extension to December 16, 2015.

DATED: November 16, 2015

Respectfully Submitted,
