Application for the Sale/ Transfer /Merger of multiple utility systems from the Lower Colorado River Authority to Corix Utilities (Texas) Inc.

We are pleased to provide the TCEQ with our STM application for the Windmill Ranch Wastewater System for the transfer of the utility assets and operations from the Lower Colorado River Authority to Corix Utilities (Texas) Inc. We have previously provided four copies of the Purchase Sale Agreement between Corix and LCRA as this document covers the sale and purchase of all the utility systems noted herein.

Attached to this letter please find an Overview of the TCEQ filing, indicating the specific system(s) where we are requesting approval of the transfer and the issuance of a new CCN number or a new CCN for existing services.

Our STM applications cover 17 of 18 utility systems being acquired by Corix. One system being acquired relates to the provision of raw water for irrigation purposes and is not subject to TCEQ jurisdiction.

We look forward to working with the Commission and other stakeholders with respect to this STM application. Should you have any questions, please contact me directly.

Yours truly,
Corix Utilities (Texas) Inc.

10. Contact person. Please provide information about the person to be contacted regarding this application. Indicate if this person is the owner, operator, engineer, attorney or accountant.
 Name: Derek Seal Title: Attorney
 Address: 401 Congress Ave., Suite 2100, Austin, Texas 78701 Telephone (AC): 512-370-2807
 Fax # 512-370-2850 Email dseal@winstead.com
 Relationship to the applicant: Outside Counsel

11. Please respond to each of the following questions. Attach additional sheets if necessary.
 A. Describe the experience and qualifications of the applicant to provide adequate utility service to the requested area:

See Exhibit D - Experience and Qualifications

- B. Has the applicant acquiring the CCN or facilities or an affiliated interest of the applicant been under enforcement action by the TCEQ, Texas Department of Health (TDH), the Office of the Attorney General (OAG) or the Environmental Protection Agency (EPA) in the past for noncompliance with rules, orders or State Statutes?

☐ Yes ☒ No

If yes, please attach copies of any correspondence with these regulatory agencies concerning these enforcement actions and describe any actions and efforts to comply with those requirements. Attach additional sheets if needed.

- C. Describe the source and availability of funds required to make the planned or required improvements, if any, to meet minimum requirements of the TCEQ and ensure continuous and adequate service.

The source and availability of funds required to make the planned or required improvements as identified in Exhibit K (Q.17.c), if any, will be from a combination of intercompany debt, equity funding from Corix Infrastructure (US) Inc., and internal cash flow from operations.

See Exhibit E – Corix Organizational Charts

- D. Describe the anticipated impact of this transaction on the quality of utility service and explain any anticipated changes in the quality of service.

Corix anticipates the quality of utility service will be the same or better subsequent to this transaction. Corix has an extensive proven track record of providing water and wastewater utility services to similar sizes and types of systems as the system subject to this transaction.

Corix Operating Plan and Quality Management Plan for the system is attached as per **Exhibit F – Utility Service Quality**

- E. How will the transaction serve the public interest?

Based on 30 Texas Administrative Code Section 291.112(c)(5) of TCEQ's rules, which describes the factors that TCEQ must consider in determining whether the transaction is in the public interest, Corix will provide proper notice, and as described in more detail in other provisions of the application, Corix is capable of rendering adequate and continuous service to every consumer within the certificated area, has extensive experience as a utility service provider, has a history of complying with regulatory requirements that apply to regulated public utilities and of properly managing or using revenues as a utility service provider, and has the ability to provide the necessary capital investment to ensure the provision of continuous and adequate service to the customers of the public utilities.

12 Please describe the nature of the proposed transaction:

In November 2010, the Lower Colorado River Authority (LCRA) announced its intention to divest itself of the retail and wholesale water and wastewater utility systems that it owned. In August of 2012, after undertaking a national solicitation process, LCRA announced that Corix was the preferred proponent to acquire substantially all of the utility systems that LCRA was seeking to divest. In November, 2011, Corix and LCRA entered into a Memorandum of Understanding to acquire 18 utility systems in the Hill Country and in the S.E. Region of Central Texas. On March 31st, 2012 Corix and LCRA executed a Purchase Sale Agreement which provided a base purchase price, an allocation of the purchase price between systems and a closing price adjustment mechanism (to account for changes in asset values between June 30th, 2011 and the closing date to acquire these 18 utility systems). On October 1st, 2012, Corix and LCRA also executed a Confirmation and Supplemental Agreement related to the utility systems, but excluding Lometa water and wastewater system.

The 18 systems subject to this purchase sale transaction are listed below:

1. Alleyton Water Utility System
2. Alleyton Wastewater Utility System
3. Matagorda Dunes Water Utility System
4. Matagorda Dunes Wastewater Utility System
5. Camp Swift Wastewater Utility System
6. McKinney Roughs Wastewater Utility System
7. Ridge Harbor Water Utility System
8. Ridge Harbor Wastewater Utility System
9. Spicewood Beach Water Utility System
10. Quail Creek Water Utility System
11. Smithwick Mills Water Utility System
12. Sandy Harbor Water Utility System
13. Lake Buchanan Water Utility System
14. Paradise Point Water Utility System
15. Lometa Water Utility System (*subject to ROFR by City of Lometa, expired*)
16. Lometa Wastewater Utility System (*subject to ROFR by City of Lometa, expired*)
17. Windmill Ranch Wastewater Utility System (Pending)
18. Windmill Ranch Raw Water Transportation System (*not subject to TCEQ jurisdiction*) (Pending)

In addition, under the terms of the Purchase Sale Agreement, Corix and LCRA will work collaboratively with the respective stakeholders to develop a plan of action to replace the non-compliant water supply at Bonanza Beach and Tow Village (the "Environmentally Excluded Assets") with a new water supply, such that LCRA can become fully divested of these two remaining utility systems within 2 years of the financial close of the divestiture of other systems to Corix. Notwithstanding, Corix is under no obligation to acquire the original water distribution system assets.

The Right of First Refusal held by the City of Lometa expired on July 3rd unexercised.

Corix, pursuant to a Transitional Operations & Maintenance Agreement with LCRA commenced operations of the 18 systems on July 1st, 2012. This operational contract will terminate on the financial closing and transfer of each individual system from LCRA to Corix. The proposed transaction represents a unique utility privatization transaction in the State of Texas, where a public agency is divesting itself of 17 retail utility systems and a raw water supply system to an investor owned utility.

- 13 If the transferee applicant is an Investor Owned Utility (IOU) and will be under the rate jurisdiction of the TCEQ, please provide the following information.

See Exhibit G - Price and Utility Cost Data

- A.
- Total Purchase Price: _____
 - Total Original Cost (as recorded on books of seller or merging entity): _____

 - Revenues from explicit customer agreements: _____
 - Developer Contributions (please explain): _____
 - Other Contributions (please explain): _____

Total Contributions in Aid of Construction _____

- Net Book Value: _____

If the Original Cost or any of the above items has been established in a rate case proceeding by the PUC, the TWC or the TCEQ, please provide the Application/Docket Number and date:

Application/Docket Number: n/a Date: n/a

- B. Please provide any other information concerning the nature of the transaction you believe should be given consideration if not explained elsewhere in the application

See Exhibit H – Other Transaction Considerations

- C. Complete the following proposed entries listed below as shown in books of purchasing (or surviving) company. Additional entries may be made; the following are suggested only, and not intended to pose descriptive limitations.

See Exhibit G: Price & Utility Cost Data

Utility Plant in Service: _____

Plant Acquisition Adjustment: _____

Extraordinary Loss on Purchase: _____

Accumulated Depreciation of Plant: _____

Mortgage Payable: _____

Others (please list): _____

As the purchaser, I understand that it is **my responsibility** in any future rate proceeding to provide written evidence and support for the original cost and installation date of all facilities used and useful for providing utility service.

Purchaser's Initials: *SL* Date: August 16, 2013

14. Please indicate the proposed effect of this transaction on the rates to be charged to the affected customer

- ☒ All the customers will be charged the same rates as they were charged before the transaction.
☐ Some ☐ All customers will be charged different rates than they were charged before the transaction.

If rates are changing, please explain:

Corix proposes to adopt the existing rates currently charged by LCRA and maintain those rates following our acquisition of the utilities until Corix has better information about the required costs of services. Corix's current plans are to undertake detailed cost of service studies, and based on the results of the cost of service studies, Corix will be better able to determine any required rate adjustments. Please refer also to Section 5.3 of the Corix-LCRA Purchase Sale Agreement regarding possible rate impact mitigation measures that have been agreed to between the Parties.

- ☒ Applicant is an IOU and intends to file with the Commission or municipal regulatory authority an application to change rates of some/all of its customers as a result of this transaction. If so, please explain: Following the close of this transaction, Corix current plans are to undertake detailed cost of service studies, and based on the results of the cost of services studies, Corix will be better able to determine any required rate adjustments. Depending on any required rate adjustments, and subject to Section 11.3 of the Corix-LCRA Purchase Sale Agreement, Corix will file its application to change rates with the Commission at that time.

☒ Other. Please explain:

Corix proposes to adopt the existing rates charged by LCRA and maintain those rates following our acquisition of the utilities. Notwithstanding the foregoing, some of the fees charged in the former LCRA Tariff are not allowed to be charged by a Investor Owned Utility, and have been removed by Corix in its proposed Tariff Terms and Conditions. Please refer: **Exhibit I.1 - Tariff Terms & Conditions (including Drought Contingency Plan)**

15. List all neighboring water and /or sewer utilities, cities, and political subdivisions providing the same service within two (2) miles of area affected by this proposed transaction. This information should be available from the water utility database (WUD) or Applicant's licensed water operator.

Lometa Water System:

- Lower Colorado River Authority
- Central Texas Groundwater Conservation District
- Fox Crossing Water District
- Saratoga Underground Water Conservation District
- Brazos River Authority
- Kempner WSC
- City of Lampasas
- City of Lometa

16. Financial, Managerial and Technical information for the acquiring entity.

See Exhibit J – Corix Infrastructure (US) Inc. Historical Financial Statements

The financial information presented is for **Corix Infrastructure (US) Inc.**, which is the parent company of **Corix Utilities (Texas) Inc.** (the acquiring entity). As Corix Utilities (Texas) Inc. was incorporated to undertake the acquisition of the LCRA water and wastewater systems, it has no historical financial information. Pursuant to discussions with TCEQ staff, projected financial statements for Corix Utilities (Texas) Inc. are not required.

17. - 22. **PLEASE ANSWER QUESTIONS 17 THROUGH 22 ON A DIFFERENT SHEET FOR EACH PHYSICALLY DISTINCT SYSTEM BEING TRANSFERRED OR ACQUIRED**

See Exhibit K.1 – System Specific Technical Data

24. Attach the following maps with each copy of the application:

See Exhibit L – System Specific Maps

- One small scale map clearly showing affected service area with enough detail to accurately locate the area if the application is for the transfer of all or a portion of a CCN.
- One large scale map showing the proposed service area boundaries being sold, transferred, or merged and, if available, the existing and proposed facilities. Color coding should be used to differentiate existing

from proposed facilities. Facilities and service area boundaries should be shown with such exactness that they can be located on the ground.

If transferring area not currently in a CCN or a portion of an existing CCN area please attach the following hard copy maps with each copy of the application:

1. A general location map delineating the proposed service area with enough detail to accurately locate the proposed area within the county.
2. A map showing only the proposed area by:
 - i. metes and bounds survey certified by a licensed state or registered professional land surveyor; or
 - ii. projectable digital data with metadata (proposed areas should be in a single record and clearly labeled, data disk should be included); or
 - iii. following verifiable natural and man-made landmarks, or
 - iv. a copy of recorded plat map with metes and bounds.
3. A written description of the proposed service area.

11. Please respond to each of the following questions. Attach additional sheets if necessary.
A. Describe the experience and qualifications of the applicant to provide adequate utility service to the requested area:

See Exhibit D - Experience & Qualifications

- F. Has the applicant acquiring the CCN or facilities or an affiliated interest of the applicant been under enforcement action by the TCEQ, Texas Department of Health (TDH), the Office of the Attorney General (OAG) or the Environmental Protection Agency (EPA) in the past for noncompliance with rules, orders or State Statutes?

☐ Yes ☒ No

If yes, please attach copies of any correspondence with these regulatory agencies concerning these enforcement actions and describe any actions and efforts to comply with those requirements. Attach additional sheets if needed.

- G. Describe the source and availability of funds required to make the planned or required improvements, if any, to meet minimum requirements of the TCEQ and ensure continuous and adequate service.

The source and availability of funds required to make the planned or required improvements as identified in Exhibit K (Q.17.c), if any, will be from a combination of intercompany debt, equity funding from Corix Infrastructure (US) Inc., and internal cash flow from operations.

See Exhibit E – Corix Organizational Charts

- H. Describe the anticipated impact of this transaction on the quality of utility service and explain any anticipated changes in the quality of service.

Corix anticipates the quality of utility service will be the same or better subsequent to this transaction. Corix has an extensive proven track record of providing water and wastewater utility services to similar sizes and types of systems as the system subject to this transaction.

Corix Operating Plan and Quality Management Plan for the system is attached as per **Exhibit F – Utility Service Quality**

- I. How will the transaction serve the public interest?

Based on 30 Texas Administrative Code Section 291.112(c)(5) of TCEQ's rules, which describes the factors that TCEQ must consider in determining whether the transaction is in the public interest, Corix will provide proper notice, and as described in more detail in other provisions of the application, Corix is capable of rendering adequate and continuous service to every consumer within the certificated area, has extensive experience as a utility service provider, has a history of complying with regulatory requirements that apply to regulated public utilities and of properly managing or using revenues as a utility service provider, and has the ability to provide the necessary capital investment to ensure the provision of continuous and adequate service to the customers of the public utilities.

12 Please describe the nature of the proposed transaction:

In November 2010, the Lower Colorado River Authority (LCRA) announced its intention to divest itself of the retail and wholesale water and wastewater utility systems that it owned. In August of 2012, after undertaking a national solicitation process, LCRA announced that Corix was the preferred proponent to acquire substantially all of the utility systems that LCRA was seeking to divest. In November, 2011, Corix and LCRA entered into a Memorandum of Understanding to acquire 18 utility systems in the Hill Country and in the S.E. Region of Central Texas. On March 31st, 2012 Corix and LCRA executed a Purchase Sale Agreement which provided a base purchase price, an allocation of the purchase price between systems and a closing price adjustment mechanism (to account for changes in asset values between June 30th, 2011 and the closing date to acquire these 18 utility systems). On October 1st, 2012, Corix and LCRA also executed a Confirmation and Supplemental Agreement related to the utility systems, but excluding Lometa water and wastewater system.

The 18 systems subject to this purchase sale transaction are listed below:

19. Alleyton Water Utility System
20. Alleyton Wastewater Utility System
21. Matagorda Dunes Water Utility System
22. Matagorda Dunes Wastewater Utility System
23. Camp Swift Wastewater Utility System
24. McKinney Roughs Wastewater Utility System
25. Ridge Harbor Water Utility System
26. Ridge Harbor Wastewater Utility System
27. Spicewood Beach Water Utility System
28. Quail Creek Water Utility System
29. Smithwick Mills Water Utility System
30. Sandy Harbor Water Utility System
31. Lake Buchanan Water Utility System
32. Paradise Point Water Utility System
33. Lometa Water Utility System (*subject to ROFR by City of Lometa, expired*)
34. Lometa Wastewater Utility System (*subject to ROFR by City of Lometa, expired*)
35. Windmill Ranch Wastewater Utility System (Pending)
36. Windmill Ranch Raw Water Transportation System (*not subject to TCEQ jurisdiction*) (Pending)

In addition, under the terms of the Purchase Sale Agreement, Corix and LCRA will work collaboratively with the respective stakeholders to develop a plan of action to replace the non-compliant water supply at Bonanza Beach and Tow Village (the "Environmentally Excluded Assets") with a new water supply, such that LCRA can become fully divested of these two remaining utility systems within 2 years of the financial close of the divestiture of other systems to Corix. Notwithstanding, Corix is under no obligation to acquire the original water distribution system assets.

The Right of First Refusal held by the City of Lometa expired on July 3rd unexercised.

Corix, pursuant to a Transitional Operations & Maintenance Agreement with LCRA commenced operations of the 18 systems on July 1st, 2012. This operational contract will terminate on the financial closing and transfer of each individual system from LCRA to Corix. The proposed transaction represents a unique utility privatization transaction in the State of Texas, where a public agency is divesting itself of 17 retail utility systems and a raw water supply system to an investor owned utility.

- 13 If the transferee applicant is an Investor Owned Utility (IOU) and will be under the rate jurisdiction of the TCEQ, please provide the following information.

See Exhibit G - Price & Utility Cost Data

14. Please indicate the proposed effect of this transaction on the rates to be charged to the affected customers.

- ☒ All the customers will be charged the same rates as they were charged before the transaction.
☐ Some ☐ All customers will be charged different rates than they were charged before the transaction.

If rates are changing, please explain:

Corix proposes to adopt the existing rates currently charged by LCRA and maintain those rates following our acquisition of the utilities until Corix has better information about the required costs of services. Corix's current plans are to undertake detailed cost of service studies, and based on the results of the cost of service studies, Corix will be better able to determine any required rate adjustments. Please refer also to Section 5.3 of the Corix-LCRA Purchase Sale Agreement regarding possible rate impact mitigation measures that have been agreed to between the Parties.

- ☒ Applicant is an IOU and intends to file with the Commission or municipal regulatory authority an application to change rates of some/all of its customers as a result of this transaction. If so, please explain: Following the close of this transaction, Corix current plans are to undertake detailed cost of service studies, and based on the results of the cost of services studies, Corix will be better able to determine any required rate adjustments. Depending on any required rate adjustments, and subject to Section 11.3 of the Corix-LCRA Purchase Sale Agreement, Corix will file its application to change rates with the Commission at that time.

☒ Other. Please explain:

Corix proposes to adopt the existing rates charged by LCRA and maintain those rates following our acquisition of the utilities. Notwithstanding the foregoing, some of the fees charged in the former LCRA Tariff are not allowed to be charged by an Investor Owned Utility, and have been removed by Corix in its proposed Tariff Terms and Conditions. Please refer: **Exhibit I.2 - Tariff Terms & Conditions**

15. List all neighboring water and /or sewer utilities, cities, and political subdivisions providing the same service within two (2) miles of area affected by this proposed transaction. This information should be available from the water utility database (WUD) or Applicant's licensed water operator.

Lometa Wastewater System:

- Lower Colorado River Authority
- Saratoga Underground Water Conservation District
- Brazos River Authority
- City of Lometa

16. Financial, Managerial and Technical information for the acquiring entity.

See Exhibit J – Corix Infrastructure (US) Inc. Historical Financial Statements

The financial information presented is for **Corix Infrastructure (US) Inc.**, which is the parent company of **Corix Utilities (Texas) Inc.** (the acquiring entity). As Corix Utilities (Texas) Inc. was incorporated to undertake the acquisition of the LCRA water and wastewater systems, it has no historical financial information. Pursuant to discussions with TCEQ staff, projected financial statements for Corix Utilities (Texas) Inc. are not required.

17. - 22. **PLEASE ANSWER QUESTIONS 17 THROUGH 22 ON A DIFFERENT SHEET FOR EACH PHYSICALLY DISTINCT SYSTEM BEING TRANSFERRED OR ACQUIRED**

24. Attach the following maps with each copy of the application:

See Exhibit L – System Specific Maps

- One small scale map clearly showing affected service area with enough detail to accurately locate the area if the application is for the transfer of all or a portion of a CCN.
- One large scale map showing the proposed service area boundaries being sold, transferred, or merged and, if available, the existing and proposed facilities. Color coding should be used to differentiate existing from proposed facilities. Facilities and service area boundaries should be shown with such exactness that they can be located on the ground.

If transferring area not currently in a CCN or a portion of an existing CCN area please attach the following hard copy maps with each copy of the application:

4. A general location map delineating the proposed service area with enough detail to accurately locate the proposed area within the county.
5. A map showing only the proposed area by:
 - v. metes and bounds survey certified by a licensed state or registered professional land surveyor; or
 - vi. projectable digital data with metadata (proposed areas should be in a single record and clearly labeled, data disk should be included); or
 - vii. following verifiable natural and man-made landmarks, or
 - viii. a copy of recorded plat map with metes and bounds.
6. A written description of the proposed service area.
