

7. In accordance with 30 TAC §319.9, a permittee that has at least twelve months of uninterrupted compliance with its bacteria limit may notify the commission in writing of its compliance and request a less frequent measurement schedule. To request a less frequent schedule, the permittee shall submit a written request to the TCEQ Wastewater Permitting Section (MC 148) for each phase that includes a different monitoring frequency. The request must contain all of the reported bacteria values (Daily Avg. and Daily Max/Single Grab) for the twelve consecutive months immediately prior to the request. If the Executive Director finds that a less frequent measurement schedule is protective of human health and the environment, the permittee will be given a less frequent measurement schedule. For this permit, 1/quarter will be reduced to 1/6 months. **A violation of any bacteria limit by a facility that has been granted a less frequent measurement schedule will require the permittee to return to the standard frequency schedule, and the permittee may not apply for another reduction in measurement frequency for at least 24 months from the date of the last violation.** The Executive Director may establish a more frequent measurement schedule if necessary to protect human health or the environment.

Grand Ranch Treatment Company, A2087

EMCAD, CCN No. 20832

Completed Application: Ok

List of Notice: Incomplete

Seller's Inspection Report and Response:

Buyer's (if IOU) Current Annual Report: NA

Buyer's (if IOU) Question 13A: Ok

Buyer's (WSCs) Current Tariff: NA

Agreement between Parties: Ok

Financials: Ok

Overlap Check: Ok

Oath: Ok

STM Checklist
