> Application from EMCAD Water and Wastewater, LLC, A2089, to Acquire Facilities and transfer Certificate of Convenience and Necessity (CCN) No. 20816 held by Dusty Drury dba D & K Development Corp., in Tarrant County; Application No. 37727-S

CN: 604519330; RN: 107111247 (EMCAD Water and Wastewater, LLC)

CN: 600677470; RN: 101239796 (D&K Development Corp.)

Dear Mr. Renbarger:

Re:

We have reviewed the criteria in Texas Water Code (TWC), Section 13.301(e) and determined that a public hearing will not be requested. You may complete your proposed transaction as scheduled, or any time after you receive this notification. Please note that the transaction must comply with the requirements of TWC Section 13.301(d) and therefore cannot be completed prior to the issuance of this letter.

The second part of the application, which is transferring the CCN, will occur following receipt of the following documents:

- a copy of the signed contract or bill of sale, and
- documents supporting the disposition of customer deposits.

The application cannot be approved nor the CCN transferred until we receive evidence that the transaction was completed. These items must be received by the Utilities & Districts Section, Water Supply Division, within 30 days after the effective date of the transaction.

After the proper documentation is received, staff will prepare a proposed map, certificate, and recommendation for both applicants to review before submitting them to the Executive Director for approval and the transfer of the CCN. A copy of this information will be sent to both the buyer and seller.

Mr. Bob Renbarger, Attorney Page 2 May 23, 2014

If you concur with the recommendation, the consent forms must be signed and returned by both applicants before the recommendation to transfer the CCN can be approved by the Executive Director. If both consents are not received, the CCN will remain in the name of the seller and the seller remains responsible for the systems for purposes of TWC Section 13 regulations. (See TWC, Section 5.122 and 30 Texas Administrative Code Section 50.33).

As an alternative to the seller's continued involvement in the process, the closing document(s) and any accompanying correspondence may include a statement that the seller consents with the transfer of the CCN to the buyer with specific references to the statute and rule noted above. The statement will serve to authorize the Executive Director to take action upon receipt of the buyer's signed consent form. In this situation, however, the seller is relying on the buyer to provide the final consent on the CCN transfer.

Finally, please note that from the time the application is filed until the CCN is transferred, it is the applicants' (buyer and seller) responsibility to notify and update the Utilities & Districts Section, Water Supply Division, of changes in the financial, managerial, or technical information provided in the application.

If you have further questions, please contact Ms. Debbie Reyes Tamayo at (512) 239-4683, or if by correspondence, include Mail Code 153 in the letterhead address.

Sincerely.

Cari-Michel La Caille, Assistant Director

If applicable, the staff person must send an email to Central Registry requesting them to link the appropriate CCN, CN and RN numbers. The email should be addressed to Karen Young with a copy to Bernadette Segala and say WUD Priority in the subject line. If these numbers are not linked appropriately, the Chief Clerk's Office will not be able to accept the application for posting and the file will be returned to our program area. This will cause a delay in the getting the final order and CCN(s) signed.
