To Whom It May Concern:

This letter is to serve as an official protest to the proposed increase set forth by Inline Utilities LLC. We strongly oppose these increases. We understand that our economy commonly adjusts to inflation as do services such as water and sewer, however we feel that such a drastic increase in fees and rates by Inline Utilities LLC is much more than just inflation as can be seen by the Notice of Proposed Rate Change that we received. We are already in a monopoly situation as we must use Inline Utilities LLC for all sewer and water with no other options. Please consider our concerns and hold a hearing to stop the heavy increase to their proposed changes. Thank you.

Sincerely,

Korin Lowery
