NOTICE OF DEFICIENCY

Re: Water Rate/Tariff Change Application of Fremont Water Co., Certificate of Convenience and Necessity No. 12821 in Kerr County; Application No. 37993-R

CN: 604527853; RN: 101193191

Dear Mr. Gregory:

Your rate/tariff change application received on July 25, 2014, has been assigned Application No. 37993-R, but has not been accepted for filing. Please refer to this number in future correspondence.

Based on an administrative review of your application, it appears the notice to customers contains deficiencies. To continue processing the application, you must complete and revise the following portions of the notice:

1. The 10,000 gallon calculations of your billing comparison for the existing rate is incorrect;
2. Your proposed effective date is September 26, 2014; however, you read your customers' meters every last day of the month. Please make sure that the new effective date will coincide with the meter reading date (30th of each month).

The effective date of your rate change is hereby suspended until the deficiencies are corrected and your customers are re-noticed. Your new effective date must be at least 60 days following the date the completed application is mailed and correct notice is mailed or delivered to the customers. It must also be the first day of a billing period. If you have collected the new proposed rates, you are required to refund the excess amount collected.

Mr. Fred R. Gregory
