To Whom It May Concern:

The City of Pearland does not object to the dual certification amendment application from Brazoria County MUD No. 22 (Savannah). In fact, the City previously consented to the annexation by Savannah of the 31.42 acre tract (the Tract) that is the subject of the application. At the time the CCN for this area was granted to the City, it was understood that the City had the right to assign the rights to provide water and sewer service to other entities of its choosing. By consenting to the creation of the MUD and to the annexation by the District of the Tract, this is essentially what we have done.

Please contact me if you have any questions.

Sincerely,

Darrin M. Coker
City Attorney
