APPLICANT/PROPERTY OWNER'S RESPONSE TO ORDER NO. 10

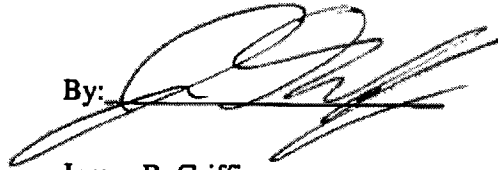

COMES NOW the Applicant/Property Owner (Applicant) and files its response to Order No. 10. This response is being filed on November 2, 1015, prior to the November 4, 2015 deadline provided in Order No. 10, and is therefore timely. .

On October 12, 2015, the Public Utility Commission of Texas (Commission) issued Order No. 10, which again stated deficiencies in the mapping and digital data provided to the Commission. Applicant's understanding based on previous meetings with Commission staff was that the remaining discrepancies in the mapping and digital data were so minor that Applicant could concede such minor discrepancies and proceed with current mapping. Order No. 10 stated that such understanding was incorrect and mapping deficiencies remained. Subsequently, Applicant's representatives discussed such deficiencies with Commission staff and it was determined that additional revisions to the maps were needed – specifically, Commission staff requested additional detail (dimensions and accentuated boundaries) on the road/right-of-ways in and around the subject property. Included with this response are additional maps meeting Commission staffs latest request.

The additional revisions made to the mapping data should finally appease Commission staff, as all requested revisions have been made and the mapping and digital data provided over the course of this Application should be more than sufficient to identify, locate, incorporate, etc., the CCN boundaries included in this Application. Therefore, Applicant respectfully requests that the Application be deemed administratively complete and a procedural schedule set.

Respectfully Submitted,

By:

James B. Griffin,
Brown & Ortiz, P.C.
