Ni America

2015 MAR 31 AM 11:27

PUBLIC UTILITY COMMISSION
FILING CLERK

To whom it may concern docket # 43177

We do not need an increase in our water from ni america. Our water is not drinkable you have to boil the water cause its soapy or it's brown. We are being charged to much for water we cannot even use. I boil it evertime cause you either smell to much chlorine it's brown like beer. I have pictures of how nasty the water looks and they want to increase the water and they cant even take care of it now. And we have no water pressure what so ever. We call and they don't do nothing just give us attitude we pay over 80 dollars for water we can not use. This is outrageous.

Sincerly

Patricia White
