Re: Docket No. 43253: City of Schertz –Response to Mapping Review Questions

Per an email sent by Matthew Arth on Monday, January 25, 2016, the following information was requested:

- A revised large scale (detailed) map only delineating the proposed sewer service area with enough detail to accurately locate the service area in the vicinity of surrounding roads, streets, and highways. This map must be large enough to clearly and accurately measure distances from the outer boundary of the proposed sewer service area to nearby roads, streets and highways.
- In the cover letter, state the revised total approximate acreage for the proposed sewer service area to be amended (added to) the City of Schertz's sewer CCN, after the removal of the landowner opt outs, the portions overlapping with the district boundary of CRWA and the corporate boundaries of the City of Converse and the City of San Antonio.

Enclosed please find 7 hard copies and 7 CD's of the large scale map as requested. The approximate acreage is 3037.1 acres is the acreage of the proposed sewer service area to be amended (added to) the City of Schertz's sewer CCN, after the removal of the landowner opt outs, the portions overlapping with the district boundary of CRWA and the corporate boundaries of the City of Converse and the City of San Antonio. If you have any questions, please contact my office at (210) 619-1800.

Sincerely,

Sam D. Willoughby
Public Works Director
