RE: Changes to Twin Creek WSC's Tariff

To whom it may concern:

Please be advised that the attached page of changes to our Tariff was adopted by our Board of Directors on March 11, 2014. The member notification of these changes will be published in our Spring Newsletter and mailed to each member by the end of March 2014.

The effective date of the changes was set for May 1, 2014 which allows for the required 30 day prior notification.

Please send us an acknowledgement that you have received the Tariff changes for our records.

Thanks for your time and consideration of this matter.

Sincerely,

Jim Callaway: TCWSC Secretary-Treasurer

Date: March 18, 2014

## Twin Creek WSC

### Member Notification of Changes Made to the Tariff and Adopted by the BOD on 3/11/14

- 1.) Section G (Page #4) Service Trip Fee  
Trip Charge to be \$50.00 plus \$30.00 per hour per employee for each additional hour required.  
Add Sentence: "The above fees may also be charged to members when their complaint is determined to be past our meter and within their private water distribution".
- 2.) New Meter and Assembly fee (when required) is changed from \$95.00 to \$105.00.
- 3.) New Tap Fee is changed from \$675.00 to \$685.00.
- 4.) Section G (Page # 5) Item #21: Delete "to new construction".
- 5.) Section G (Page #5) Item 26(A) Change Base Rate to \$36.50.  
Also add a second item (B): "A Special Service Fee (Min. \$25.00/Max.\$50.00) may be charged to members who request help on their private water distribution such as turning a cut-off valve on or off, looking for leaks, or other requests made for items which are past our meter".
- 6.) Change the Recording Fee from \$20.00 to \$30.00.
- 7.) Section E (Page #13) (#26) Member's Responsibility  
A.) Second Paragraph/second sentence: Change air space to air gap.  
Also add sentence at end: "All automatic water feeds must have back-flow preventers either RPZ or RPBA types".
- 8.) Section C. (Page#1) Definitions  
Add after "Active Service": Air Gap—"The unobstructed vertical distance through the free atmosphere between the lowest opening from an pipe or faucet conveying water to a tank, fixture, receptor, sink, or other assembly and the flood level rim of the receptacle. The vertical, physical separation must be at least twice the diameter of the water supply outlet, but never less than 1.0 inch".
- 9.) Effective Date for all changes: May 1, 2014.
