**ORDER NO. 3
FINDING APPLICATION INCOMPLETE/DEFICIENT;
ESTABLISHING DEADLINES**

On October 22, 2014, Public Utility Commission of Texas (Commission) Staff responded to Order No. 2 regarding the above-styled and numbered proceeding. Commission Staff stated that the application is not administratively complete and is not considered filed because it contained the following deficiencies:

- Applicants did not include a list of neighboring entities within a two- and five-mile boundary of the proposed water service area; and
- Since Bear Springs Trails Water Supply Corporation, Inc. is acquiring a new water Certificate of Convenience of Necessity, Applicants must provide a list to the Commission of neighboring utilities, districts, counties, groundwater conservation districts, all cities and extraterritorial jurisdictions, or any other entities providing the same type of service within a two- and five-mile boundary of the proposed service area.

Commission Staff stated that Notice should not be sent to neighboring entities within two and five miles until the Applicants have received Commission approval of the proposed notice and recommended that the Applicants be given until November 21, 2014, to cure the deficiencies listed above and file proposed text of notice for Commission approval.

Consistent with Commission Staff's determination, the application is deemed deficient and administratively incomplete and the following procedural schedule is approved:

Deadline for Applicant to cure deficiencies and file proposed text of notice	November 21, 2014
Deadline for Staff to file a supplemental recommendation on administrative completeness and propose additional dates for a continued procedural schedule, as appropriate	December 5, 2014

SIGNED AT AUSTIN, TEXAS the 24th day of October 2014.
