Re: PUC Docket No. 43360
Application of the City of Pleasanton for Certificates
Of Convenience and Necessity in Atascosa County

PUC Staff's 1st RFI to City of Pleasanton

Dear Sir:

In response to the PUC's 1st RFI to the City of Pleasanton regarding the above mentioned application, we offer the following responses:

Staff 1-1: Provide copies of Requests for Service, as indicated in application. Requests for service shall also be shown on a map in relation to the proposed service area and facilities.

Response: As provided by the City of Pleasanton Public Works Director- Mr. Johnny Huizar, and City Engineer- Mr. John Metting, P.E., the attached Exhibit Attachment No. 1 shows the location of requests for service. Per the City Staff, the requests for service are typically received and resolved via telephone.

Staff 1-2: Provide Number of existing and proposed connections for the expansion detailed in the application.

a. Specifically, TCEQ records indicate that the connection count for the City is currently 5174. The application states the connection count is currently 4414.

Response: As per the City of Pleasanton at the End of May 2015, the active meter count is 4618, the inactive meter count is 478 for a total of 5096 connections.

Staff 1-3: Provide copies of any TCEQ approved Plans and Specifications for the expansion of the existing system:

a. Specifically, the application states that the City is currently seeking approval for additional elevated storage in order to maintain the storage below 85% capacity.

Response: *Approval of the Plans and Specifications for the 1.25 MG Composite Elevated Tank from the TCEQ is attached as Exhibit Attachment No. 2. The elevated tank is currently under construction and is anticipated to be completed November 2015.*

Staff 1-4: Provide Production Permits for the city wells from Evergreen Underground Water Conservation District (EUWCD), which should include a cumulative production allowance for each well.

Response: *Copies of the Production Permits from the EUWCD are provided in the Attached Exhibit Attachment No. 3.*

Should you have any additional questions or comments, do not hesitate to ask.

Sincerely,

KLEIN & COPE ENGINEERING, INC.

Brian M. Cope, P.E.
President

CC: John Metting, P.E. City Engineer
Johnny Huizar, Public Works Director

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution
January 6, 2015

Mr. Brian M. Cope, P.E.
Klein & Cope Engineering, Inc.
8611 Botts Lane
San Antonio, TX 78217-6396

Re: City of Pleasanton - Public Water System ID No. 0070003
Proposed 1.25 MG Gallon Elevated Storage Tank
Engineer Contact Telephone: (210) 828-7070
Plan Review Log No. P-11062014-038
Atascosa County, Texas
CN600333900; RN101391530

Dear Mr. Cope:

On November 6, 2014, the Texas Commission on Environmental Quality (TCEQ) received planning material with your letter dated November 3, 2014 for the proposed 1.25 million gallon elevated storage tank. Based on our review, the project generally meets the minimum requirements of Title 30 Texas Administrative Code (TAC) Chapter 290 - Rules and Regulations for Public Water Systems and is approved for construction:

The submittal consisted of 54 sheets of engineering drawings and technical specifications. The approved project consists of:

- One (1) 1.25 million gallon American Water Works Association Standard D107 composite elevated storage tank; and
- All necessary valves, fittings, yard piping, and appurtenances

This approval is for the construction of the above listed items only. Any wastewater components contained in this design were not considered.

The City of Pleasanton public water supply system provides water treatment.

The proposed project will be located on Crestline Drive in Atascosa County, Texas.

An appointed engineer must notify the TCEQ's Region 13 Office in San Antonio at (210) 490-3096 when construction will start. Please keep in mind that upon completion of the water works project, the engineer or owner will notify the commission's Water Supply Division, in writing, as to its completion and attest to the fact that the work has been completed essentially according to the plans and change orders on file with the commission as required in 30 TAC §290.39(h)(3).

Please complete a copy of the most current Public Water System Plan Review Submittal form for any future submittal to TCEQ. Every blank on the form must be completed to minimize any delays in the review of your project. The document is available on our website at the address shown below.
