ORDER NO. 9
UNABATING DEADLINE FOR FURTHER PROCESSING

On November 12, 2015, August Lakes Water Supply Corporation (August Lakes) filed a request to unabate the deadline for filing either (1) a proposed procedural schedule to incorporate the necessary Texas Commission on Environmental Quality (TCEQ) confirmation of compliance; or (2) a request to abate the docket until the necessary TCEQ process was completed. Specifically, August Lakes included in its November 12, 2015 filing, a current letter from the majority partner in the August Lakes development indicating that the financial data already provided and supplied with the original application remains valid and correct; therefore, the deadline abated in Order No. 8 can now be unabated. August Lakes represented that conversations with Commission Staff suggest a deadline of December 18, 2015, for Commission Staff to file a final recommendation regarding this application.

Consistent with the preceding representations, the deadline abated by Order No. 8 is unabated. Commission Staff shall file, on or before **December 18, 2015**, a final recommendation regarding this application and propose a deadline for the parties to file a joint proposed notice of approval, including findings of fact conclusions of law, and ordering paragraphs and a request for the admission of evidence.

SIGNED AT AUSTIN, TEXAS the 23rd day of November 2015.
