Re: Application from Manville Water Supply Corporation to Decertify a Portion of Certificate of Convenience and Necessity No. 11144 in Travis County; Application No. 34656-C

Dear Ms. Mejia:

Pursuant to your request, I am enclosing the Summary of Investigative Findings dated May 19, 2004, Investigation # 273789, relating to the above-referenced Application to Decertify a Portion of the Manville Water Supply Corporation's CCN. You had also requested any response the utility may have made to the report. I am attaching a letter dated October 4, 2004 to Shawn Stewart of TCEQ from Tony Graf, Manager of Manville, which I'm told is the only response that was made.

Please acknowledge receipt of this information by file-stamping the copy of this letter and returning it to our office via the courier hand-delivering the same.

If you have any questions or need additional information please contact me or John J. Carlton, of the firm.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preperting Pollution

August 5, 2004

CERTIFIED MAIL 7002 0860 0000 9049 5183 **RETURN RECEIPT REQUESTED**

Mr. Atlan Pfluger, President Manville Water Supply Corporation PO Box 248 Coupland, Texas 78615

Notice of Violation for the Comprehensive Compliance Investigation at: Rc: Manville Water Supply Corporation, 108 North Commerce, Coupland (Williamson County), PWS ID No.: 2270033, Regulated Entity No.: 101271088

Dear Mr. Pfluger:

On May 19, 2004, Mr. Shawn Stewart of the Texas Commission on Environmental Quality (TCEQ) Austin Region Office conducted an investigation of the above-referenced Facility to evaluate compliance with applicable requirements for public water systems. Enclosed is a summary which lists the investigation findings. During the investigation, some concerns were noted which were alleged noncompliances that have been resolved through verbal notification and subsequent corrective action. In addition, an outstanding alleged violation was identified for which compliance documentation is required. Please submit to this office by October 4, 2004, a written description of corrective action taken and the required documentation demonstrating that compliance has been achieved for the outstanding alleged violation. Corrective action must be completed so your public water supply may be operated and maintained in accordance with the requirements for a "Superior"

In the listing of alleged violations, we have cited applicable requirements, including TCEQ rules. If you would like to obtain a copy of the applicable TCEQ rules, you may contact any of the sources listed in the enclosed brochure entitled "Obtaining TCEQ Rules."

The Texas Commission on Environmental Quality appreciates your assistance in this matter. Please note that the Legislature has granted TCEQ enforcement powers which we may exercise to RECEIVED

compliance with environmental regulatory requirements. We anticipate that you will resolve the alleged violations as required in order to protect the State's environment. If you have additional information that we are unaware of, you have the opportunity to contest the violation documented in this notice. Should you choose to do so, you must notify Austin Region Office within 10 days from the date of this letter. At that time, Mr. Herschel Janus, PWS Work Leader, will schedule a violation review meeting to be conducted within 21 days from the date of this letter. However, please be advised that if you decide to participate in the violation review process, the TCEQ may still require you to adhere to the compliance schedule included in the attached Summary of Investigation Findings until an official decision is made regarding the status of any or all of the contested violations.

If you or members of your staff have any questions, please feel free to contact Mr. Stewart in the Austin Region Office at 512-339-2929.

Sincerely,

Mr. Herschel E. Janus, PWS Work Leader Austin Region Office

MANVILLE WSC

Alleged Violation:

Investigation: 273789

Investigation # 273789

Comment Date: 07/27/2004

Failed to obtain a permit for wastewater discharge. Specifically, the Facility was discharging wastewater from an iron and manganese removal process, onto the property of the state of Texas, without a permit.

Any discharge of wastewater and other plant wastes shall be in accordance with all applicable state and federal statutes and regulations. Permits for discharging wastes from water treatment processes shall be obtained from the commission, if necessary

Recommended Corrective Action: To document compliance, certify in writing, the Facility

has obtained a permit for the wastewater discharge, by the compliance due date. Resolution: The Respondent submitted a letter dated June 1, 2004, indicating that the Facility

is no longer discharging wastewater onto property of the State of Texas. Manville is currently

Dear Shawn,

We know the dead line is today and we have been working on a plant operations manual. We have called to the County 911 address system for correct addresses through out our system. This is a very slow process and we have to get the meter numbers from the sites in order to get emergency service response. We are still working on the operations manual however we can send you what we have at this time.

Sincerely,

Jong they

Tony Graf Manager
