Notice to Neighboring Systems, Landowners and Cities

NOTICE OF APPLICATION FOR CERTIFICATE OF CONVENIENCE AND
NECESSITY (CCN) TO PROVIDE WATER/SEWER UTILITY SERVICE IN
BOSQUE AND MCLENNAN COUNTY (IES)

To: Landowner

Date Notice Mailed: January 21, 2009

Childress Creek Water Supply Corporation has filed an application to amend CCN No. 11000 with the Texas Commission on Environmental Quality to provide water utility service in Bosque and McLennan Counties.

The proposed utility service area is located approximately 23 miles south southeast of downtown Meridian, Texas, and is generally bounded on the north by Cedron Creek; on the east by approximately 200 feet east of SR 22; on the south by North Bosque River; and on the west by FM 2602. The total area being requested includes approximately 78,000 acres and 679 current customers. See enclosed map of the proposed service area.

A request for a public hearing must be in writing. You must state (1) your name, mailing address, and daytime telephone number; (2) the applicant's name, application number or another recognizable reference to this application; (3) the statement, "I/we request a public hearing"; (4) a brief description of how you or the persons you represent, would be adversely affected by the granting of the application for a CCN; and (5) your proposed adjustment to the application or CCN which would satisfy your concerns and cause you to withdraw your request for a hearing.

Persons who wish to intervene or comment should write the:

Texas Commission on Environmental Quality
Water Supply Division
Utilities and Districts Section, MC-153
P. O. Box 13087
Austin, TX 78711-3087

within thirty (30) days from the date of this publication or notice. A public hearing will be held only if a legally sufficient hearing request is received or if the Commission on its own motion requests a hearing. Only those individuals who submit a written hearing request or a written request to be notified if a hearing is set will receive notice if a hearing is scheduled.

If a public hearing is requested, the Executive Director will not issue the CCN and will forward the application to the State Office of Administrative Hearings (SOAH) for a hearing. If no settlement is reached and an evidentiary hearing is held, the SOAH will submit a recommendation to the Commission for final decision. If an evidentiary hearing is held, it will be a legal proceeding similar to a civil trial in state district court.

If you are a landowner with a tract of land at least 25 acres or more, that is partially or wholly located within the proposed area, you may request to exclude the tract from the proposed area (or "opt out") by providing written notice to the Commission within (30) days from the date that notice was provided by the applicant. All requests to opt out of the requested service area must include a scaled, general location map and a metes and bounds description of the tract of land.

Persons who meet the requirements to opt out, and wish to request this option should file the required documents with the:

Texas Commission on Environmental Quality
Water Supply Division
Utilities and Districts Section, MC-153
P. O. Box 13087
Austin, TX 78711-3087

A copy of the request to opt out of the proposed area must also be sent to the applicant. Staff may request additional information regarding your request.

Re: Application from Childress Creek Water Supply Corporation (WSC) to Amend Certificate of Convenience and Necessity (CCN) No. 11000, in Bosque and McLennan Counties; Application No. 36263-C

CN: 600684526; RN: 101440634

Dear Ms. Coy:

Your application for Childress Creek WSC to amend the CCN was received on December 1, 2008, and has been accepted for filing. Thank you for providing the items we requested with your December 31, 2008, letter. Ms. Debbie Reyes Tamayo has been assigned to perform the technical review.

Your next step is to provide the **revised** public notices without delay. The notice to the public must be published once each week for two (2) consecutive weeks in a newspaper of general circulation in Bosque and McLennan Counties. It is the responsibility of the applicant to provide correct notice of the application to any utilities within two (2) miles of your proposed service area, any city with an extraterritorial jurisdiction which overlaps the proposed service area or other affected parties in your requested area. You will also be required to provide mailed notice to all landowners of more than 25 acres in your proposed CCN area pursuant to TCEQ 30 TAC Chapter 291 rules adopted on January 5, 2006. The landowner information may be obtained from the county appraisal district tax rolls for the county or counties in which the proposed CCN lies. Check the notices carefully before mailing or publishing.

A review of our files and maps indicates that, **in addition to the neighboring utilities noted on your application, you must provide notice to the following utilities:**

City of Waco (CCN No. 10039)
Highland Park WSC (CCN No. 11797)
Rolling Hills Water Supply (CCN No. 12882)
Smith Bend WSC (CCN No. 11470)

Information related to utilities and districts including addresses can be obtained from the TCEQ web site located at www10.tceq.state.tx.us/iwud.
