SOAH Docket No. 582-02-3056; Application of Hornsby Bend Utility Company to Amend Certificate of Convenience and Necessity No. 20650

Dear Mike:

As you will recall, you sent the City of Austin ("City") a request for information ("RFI") dated March 6, 2002, which asked for additional information regarding the need for water and sewer utility service in the area proposed in the City's certificate of convenience and necessity ("CCN") applications.

The City delivered an initial response to your request on April 8, 2002. The City supplemented that response with additional information on June 26, 2002. Since that supplemental response, the City has received an additional letter of support and several new service extension requests ("SER").

As a result, the City once again supplements its RFI with the following documents:

- October 16, 2002 letter of support from Manville Water Supply Corporation
- FM 812 Commercial/Industrial Park Water SER

- Marshall Ranch Wastewater SER Administration Approval
- Four Special Daughters Tract Wastewater SER

For your convenience, the above documents are attached to this letter in the order listed above. See Tabs 1-14. Please include these documents in your records with our April 8, 2002 RFI response.

We appreciate your assistance with this matter.

Very truly yours,
