### RESPONSES

1. Please provide copies of all correspondence and documents (including photographs, presentations, and/or studies) reviewed by you, received by you, or sent by you to any other landowner, local/state/federal agency official, or intervenor/intervenor group pertaining to the Blumenthal Substation and 138 k-V Electric Transmission Line Project. Please note, this request does not seek to obtain materials protected by the attorney/client privilege.

**RESPONSE:** Intervenor has no documents responsive to this Request.

2. Are you aware of any directly affected landowner that did not receive notice of the proposed transmission line project from LCRA TSC? If so, please identify the landowner and describe as best as you can the location of the property affected. [Note: a "directly affected" landowner is any landowner from whom LCRA TSC would need to obtain an easement or other property interest if it built the transmission line using one or more of the segments of the proposed transmission line or whose land contains a habitable structure that is within 300 feet of the centerline of one or more of the segments of the proposed transmission line].

**RESPONSE:** No.

**PREPARED BY:** Counsel

3. Do any existing transmission lines (i.e., a transmission line 69-k-V or greater) cross your property? If so, please describe how and where they cross your property.

**RESPONSE:** No.

**SPONSORED BY:** Intervenor

**PREPARED BY:** Counsel

4. Are any existing transmission lines (i.e., a transmission line 69-k-V or greater) visible from your property? If so, please describe from where the lines are visible, approximately how far away the lines are located, and how the current lines affect your property, if at all.

**RESPONSE:** Please see my Direct Testimony which will be filed by April 6, 2015.

**SPONSORED BY:** Intervenor

**PREPARED BY:** Counsel

5. What are your specific concerns about the proposed transmission line?

**RESPONSE:** Please see my Direct Testimony which will be filed by April 6, 2015.

6. Are your property boundaries for the property you own in proximity (i.e. within 300 feet) to LCRA TSC's route segments accurately depicted on the maps provided by LCRA TSC in its Application and Attachment 7 (maps 1-12)? If not, please explain any discrepancies and provide a modified LCRA TSC map or drawing to indicate the discrepancies.

**RESPONSE:** It appears as though any of my property's boundary lines that would be within 300 feet of any noticed route segment are accurately depicted.

**PREPARED BY:** Counsel

7. What is the primary use for your property and, in your opinion, will this primary use be affected by the proposed transmission line? If so, please explain.

**PREPARED BY:** Counsel

9. Please identify all persons with an ownership interest in the property identified in Questions 3 and 4, above.

11. Understanding that most, if not all, of the intervenors do not want the transmission line on their property, if the transmission line is nonetheless routed on your property by Order of the Commission, please identify the location for the right-of-way that would be least offensive to you. Please use a map to show the location.

**RESPONSE:** Any location on my property would be offensive to and unwanted by me, and as such, at this time I am unable to readily identify a less-offensive or otherwise desirable location.

12. Are you aware of any land transactions resulting in a change of ownership that is not currently reflected on LCRA TSC's maps? If so, please provide an explanation of that change in ownership, and please provide any documents that reflect your understanding of the change in ownership.
