Re: College Mound WSC PWS-ID #10825, current CCN application with TCEQ.

Attn: Utility and District Section

Elmo WSC is forwarding this letter only to have on record with TCEQ Utility and Districts Section, that E-WSC is not in favor of CM-WSC, CCN-application for these areas noted and highlighted on attached property maps/property owners related to properties #36 and #41 because these two properties are currently E-WSC's customers with two water meters on each property located at E.Hwy-80 property line.

Elmo WSC also wants TCEQ Utility and District Section to understand that College Mound WSC, Mac Bee SUD and Elmo WSC are currently in the process of working this CCN conflict out between the three water supplies General Managers and our Board of Directors.

At the request of EWSC's Board
I'm forwarding this letter to TCEQ.

Thanks TCEQ-U. & D. Section for your time on this CCN issue

Re: College Mound WSC Application No. 37094-C to amend CCN No. 10825

To whom it may concern:

I, John Simmons, General Manager for and on behalf of MacBee Special Utility District, PO Box 780, Wills Point, Texas 75169, daytime phone number 903-873-2109, request a public hearing regarding College Mound WSC application to amend CCN No. 10825.

MacBee SUD would be adversely affected by the granting of the application for a CCN because MacBee currently has facilities in place and is currently servicing customers in the proposed triangle area bordered by Interstate 20 and FM 2965. MacBee SUD has been servicing the area for more than eight years.

MacBee SUD requests the triangle area bordered by Interstate 20 and FM 2965 be removed from College Mound WSC application or CCN which would satisfy my concerns and cause me to withdraw my request for a hearing.

Respectively yours,

John Simmons
General Manager, for
MACBEE Special Utility District

**RE: College Mound Water Supply Corporation
CCN Application No. 37094-C**

Dear Ms. Benter:

Per your letter dated August 15, 2011, enclosed you will find the following requested information:

1. Four copies of the following information:
 - a. Maps showing only the proposed service area.
 - b. The written description of the proposed service area is the total area unclaimed between existing CCN boundaries by College Mound WSC, Elmo WSC and MacBee SUD, the southern starting point is just south of Highway 20 and continues north until meeting the existing boundaries of the other pre-named entities.
 - c. The proposed service area is without existing facilities and future facilities are not yet planned no maps available.
2. Four copies of the most recent inspection report for College Mound Water System No. 1290012. No deficiencies were listed therefore an explanation of the actions or corrections taken are not required.
3. Three additional copies of the application, including attachments.
4. The application fee has already been submitted. A copy of the correspondence is attached for reference.
5. Item 4 requests this information for new utilities and utilities requesting a C.C.N. for the first time. This application is for an existing utility with an existing C.C.N. Item 5 G., The effects of granting this amendment on the applicant would be an additional area to serve with all the normal rights and responsibilities. No other utility is currently serving this area so no effects are apparent. Effects of the current landowners in the area are not apparent at this time. Item 5.I., the ability of the College Mound W.S.C. to supply adequate service to the amendment

area has been considered and found able with minimal effect by the area's projected density and land use. Item 5.J., the effect on the land in this area would be almost non-existent with only disturbance to existing highway right-of-ways and/or minute private easements by distribution and service line placement.

If you have any questions or need any additional information please feel free to give Wes Windham a call.

Sincerely,
