Memorandum

TO: Docket Management
FROM: James Kelsaw, Competitive Markets Division
DATE: December 18, 2014
SUBJECT: Project No. 43885: Application of Green Pastures Wind II, LLC for Renewable Energy Credit Generators.

On December 3, 2014, Green Pastures Wind II, LLC filed an application to certify its Green Pastures Wind II facility as a Renewable Energy Credit (REC) generator under P.U.C. SUBST. R. 25.173(o). The application was filed using the form prescribed by the Commission and was filed under Project No. 43885. Green Pastures Wind II, LLC is registered with the Commission as a power generation company and its registration number is 20342. Green Pastures Wind II, LLC indicated that the metered generation eligible for RECs is 150MW.

After reviewing the application, I conclude that Green Pastures Wind II, LLC has provided all of the information required under P.U.C. SUBST. R. 25.173(o) and the Green Pastures Wind II facility qualifies as a renewable resource under P.U.C. SUBST. R. 25.173(e). Therefore, I recommend that the Green Pastures Wind II facility be certified as a REC generator. The approximate metered generation eligible for RECs is 150MW. The Green Pastures Wind II facility will not be eligible to produce RECs until an order is issued approving the application.

Any subsequent changes to the information in the application are to be communicated to the Commission as supplements to this filing within 30 days of such changes.
