Re: Application from City of Corsicana, Certificate of Convenience and Necessity (CCN) No. 10776, Application No.34418-C
CN: 600334494; RN: 101384493

Dear Ms. Abrams:

In response to a phone conversation with Lisa Mejia, the City has additional information to offer in an effort to substantiate a request for areas to be included in the City of Corsicana's CCN. The City has invested \$1,250,000 to construct a 24" line to serve areas along IH 45 and US 287. The purpose of this line was to attract businesses for economic development and to serve future residential growth. The City is committed to construct a 20" line along US 287 for the same purpose. A 12" line has already been constructed from South 15th Street along IH 45 for the same purposes. Over the past 5 years, the city has spent in excess of 21 million dollars to improve our system to serve our municipal customers, our wholesale customers and promote economic development. The areas requested have not been designated for service and the City respectfully requested they be included in the City's CCN.

Because of the significant investment the City has made to serve this area a CCN revision has been submitted to include these areas. If you need additional information, please contact me at (903) 654-4803 or by email at citymanager@ci.corsicana.tx.us.

LOOK AT MAPPING

Sincerely,

Connie Standridge, P.E.
Interim City Manager
