Dear Mrs. Eversole:

On February 13, 2008, Mr. Clayton Nicolardi of the Texas Commission on Environmental Quality Tyler Region Office conducted an investigation of the above-referenced facility to evaluate compliance with applicable requirements for public water systems. Enclosed is a summary which lists the investigation findings. During the investigation, some concerns were noted which were alleged noncompliances that have been resolved through verbal notification and subsequent corrective action. In addition, certain outstanding alleged violations were identified for which compliance documentation is required.

Please submit to this office by September 29, 2008, a written description of corrective action taken and the required documentation demonstrating that compliance has been achieved for outstanding alleged violations Track No. (242880) and please submit a compliance plan by May 2, 2008 for violation Track No. (305968) and (243388). The plan should include the proposed actions to be taken to correct the alleged violation and a schedule for the completion of the corrections. If the violation has already been corrected, please submit compliance documentation, such as a photograph, purchase order, etc, demonstrating what actions were taken.

In the listing of alleged violations, we have cited applicable requirements, including TCEQ rules. If you would like to obtain a copy of the applicable TCEQ rules, you may contact any of the sources listed in the enclosed brochure entitled "Obtaining TCEQ Rules."

The Texas Commission on Environmental Quality appreciates your assistance in this matter. Please note that the Legislature has granted TCEQ enforcement powers which we may exercise to ensure compliance
