Re: Application from Eagle Falls Water Supply, LLC, A1911, to Obtain Dual Certification with a Portion of Certificate of Convenience and Necessity (CCN) No. 10147 of Lake Livingston Water Supply & Sewer Service Corporation and to Obtain a CCN, in Trinity County; Application No. 36501-C

Dear Ms. Foster:

Please find enclosed an original and three copies of additional information relating to the above referenced application. The original application included information from Trinity Rural Water Supply Corporation (TRWSC) regarding the cost to provide service to the applicant. TRWSC has supplied additional information which is attached along with a short analysis justifying continued non-acceptance of service from TRWSC.

If you have any questions regarding the information contained in this submittal, please feel free to call me at 281-373-0500 or email me at syoung@waterengineers.com.

Thank you for your assistance in this review process.

Sincerely,
WATERENGINEERS, INC.

Shelley Young, P.E.

Encl: Original & 3 Copies of Additional Information

cc: Eagle Falls Water Supply, LLC

ADDENDUM TO
DETAILED ANALYSIS JUSTIFYING
NON-ACCEPTANCE OF SERVICE FROM
TRINITY RURAL WATER SUPPLY CORP.

Winn Professional Engineers and Constructors, LLC has performed a subsequent analysis for Trinity Rural Water Supply Corporation to serve the Eagle Falls development. The results of this subsequent analysis, dated September 15, 2009, and sent to us under a cover letter dated October 7, 2009, is attached hereto.

The new analysis indicates a cost to Eagle Falls Water Supply, LLC of \$2,609,400 with an additional \$875/lot parity fee due up front. The new cost estimate still exceeds the cost estimate for Eagle Falls Water Supply, LLC to construct their own system by \$1,783,333. Receiving water service from Trinity Rural Water Supply Corporation would cost Eagle Falls Water Supply, LLC over three times what they would spend themselves, making this still making this option not economically viable.
