Dear Mr. Woods:

As discussed during a telephone conversation on October 19, 2010, and with Mr. Robert Glisson, your CCN application is being returned during administrative review for failure to prosecute. We received your referenced application on June 3, 2010. A notice of deficiency letter was sent to you on June 18, 2010, to request additional information. A response was received on July 7, 2010; however, we did not receive the requested map information needed to continue processing your application. Therefore, the Commission is returning your application for failure to prosecute.

Please resubmit these applications along with the maps, according to the mapping requirements listed in the application. Enclosed are copies of your applications. The original copy will be maintained in record services for information purposes only. Failure to comply with the Texas Water Code and Commission rules will result in enforcement action against your utility.

If you have any questions, please contact Ms. Karen Blaschke at 512/239-6932, or if by correspondence, include Mail Code 153 in the letterhead address.

Sincerely,

Tammy Benter, Manager
