2014-15 Fee Schedule

Austin Energy Approved

PRICING GUIDELINES FOR ELECTRIC UTILITY PRODUCTS AND SERVICES

The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer's perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.

- (1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.
- (2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.
- (3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.
- (4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.
- (5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.

Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.

LIGHTING PRODUCTS AND SERVICES

This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.

MAINTENANCE CONTRACTS FOR CUSTOMER-OWNED MEDIUM-VOLTAGE EQUIPMENT

This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on medium-voltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.

2014-15 Fee Schedule

Austin Energy Approved

POWER QUALITY OR RELIABILITY CONTRACTING

This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer's specific needs.

SURGE PROTECTION

This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.

AUSTIN ANALYTICAL SERVICES

Austin Analytical laboratory services can benefit other customers as well as the City of Austin. The laboratory is equipped to provide PCB, lead, asbestos, and other environmental and analytical testing to customers.

EDUCATIONAL SERVICES

This service provides information and education on utility and competitive issues such as safety, power quality, planning, and energy services.

GREEN BUILDING PROGRAM

The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing "green building" practices: professional consulting, educational and informational "green building" services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems ("green building"). Green Building services are available to individuals and business outside the City of Austin's electric service area as well to businesses within the service area boundary.

DISTRICT HEATING AND COOLING SERVICE

This service provides customers and their facilities with thermal energy (in the form of chilled water, heated water, or steam) from central plant facilities and distribution systems operated by Austin Energy.

2014-15 Fee Schedule

Austin Energy Approved

CONSTRUCTION / INSTALLATION

This service consists of pole or tower construction and conduit installation for electric or communications companies.

PULSE METERING, SUBMETERING, AND INTERVAL LOAD DATA SERVICES

This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.

ENERGY MANAGEMENT SERVICES

Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energy-efficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.

DISTRIBUTED GENERATION

This service provides on-site analysis for large industrial or commercial customers to assess opportunities for on-site electrical generation for these customers for peak shaving or emergency outage situations. If circumstances for on-site generation are favorable, Austin Energy may provide or assist customers in obtaining distributed generation equipment. Austin Energy may own, operate, and/or maintain such equipment.

ELECTRIC RELIABILITY COUNCIL OF TEXAS WHOLESALE MARKET SERVICES

These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RESIDENTIAL-AUSTIN

Application

This rate applies to electric service for residential purposes to single-family dwellings and single metered apartment units whose point of delivery is located inside the city limits of Austin. This rate does not apply if a portion of the dwelling or unit is used for non-residential purposes unless such use qualifies as a home occupation as defined by City Code Section 25-2-900. This rate does not apply to electric service for separately-metered uses at the same premises, such as water wells, gates, barns, garages, boat docks, pools, and lighting.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

Monthly Charges

	Billing Months October Through May	Billing Months June Through September
Customer Charge	\$10.00	\$10.00
Energy Charges		
First 0- 500 kWh	1.8 ¢ Per kWh	3.3 ¢ Per kWh
From 501-1,000 kWh	5.6 ¢ Per kWh	8.0 ¢ Per kWh
From 1,001-1,500 kWh	7.2 ¢ Per kWh	9.1 ¢ Per kWh
From 1,501-2,500 kWh	8.4 ¢ Per kWh	11.0 ¢ Per kWh
From 2,501 kWh and greater	9.6 ¢ Per kWh	11.4 ¢ Per kWh
Power Supply Adjustment	See Below	See Below
Community Benefit Charge	See Community Benefit Charge Schedule	
Regulatory Charge	See Regulatory Charge Schedule	

Power Supply Adjustment – plus an adjustment for variable costs, calculated under the Power Supply Adjustment rate schedule, multiplied by the billable kWh.

A customer's bill for electric service of at least 10 days under this rate schedule shall not be less than the customer charge.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

Time-Of-Use Option

In lieu of the Charges above, customers receiving service under this rate schedule may choose the following time-of-use charges to be applied for a term of not less than twelve consecutive billing months. Customers selecting this time-of-use option shall permit Austin Energy to install all equipment necessary for time-of-use metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. Customers selecting this option are not eligible to participate in levelized billing. Austin Energy may administratively suspend availability of this time-of-use rate option to additional customers.

Monthly Time-Of-Use Charges

	Billing Months October Through May	Billing Months June Through September
Customer Charge	\$12.00	\$12.00
Energy Charges		
Total Monthly kWh 0-500

GreenChoice Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RESIDENTIAL – OUTSIDE AUSTIN

Application

This rate applies to electric service for residential purposes to single-family dwellings and single-metered apartment units whose point of delivery is located outside the city limits of Austin. This rate does not apply if a portion of the dwelling or unit is used for non-residential purposes unless such use qualifies as a home occupation as defined by Austin City Code Section 25-2-900. This rate does not apply to electric service for separately-metered uses at the same premises, such as water wells, gates, barns, garages, boat docks, pools, and lighting.

Character of Service

Service under this rate schedule shall be provided pursuant to Austin City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

A customer's bill for electric service of at least 10 days under this rate schedule shall not be less than the customer charge.

Time-Of-Use Option

In lieu of the Charges above, customers receiving service under this rate schedule may choose the following time-of-use charges to be applied for a term of not less than twelve consecutive billing months. Customers selecting this time-of-use option shall permit Austin Energy to install all equipment necessary for time-of-use metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. Customers selecting this option are not eligible to participate in levelized billing. Austin Energy may administratively suspend availability of this time-of-use rate option to additional customers.

GreenChoice Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RESIDENTIAL SOLAR

Application

This rider applies to any customer receiving residential electric service who has an on-site solar photovoltaic system associated with their residential account that is interconnected with Austin Energy's electric distribution system.

Monthly Charges

Billable kWh under this rate schedule shall be based on the customer's total metered energy consumption during the billing month, including the metered energy delivered by Austin Energy's electric system and the metered energy consumed from an on-site solar system. All non-kWh-based charges under this rate schedule shall remain unaffected by the application of this rider.

Solar Credit

For each billing month the customer shall receive a non-refundable, non-transferable credit equal to the metered kWh output of the customer's photovoltaic system, times the current Value-of-Solar Factor plus any carry-over credit from the previous billing month. Credits are applicable to the customer's total charges for residential electric services in the customer's name on the same premise where the photovoltaic system is interconnected. Any remaining amount of solar credit shall be carried forward and applied to the customer's next electric bill. Credits may not be transferred to another customer or to another account for the same customer. In the event of service termination, any Value of Solar credit balance will be applied to the Power Supply Adjustment (PSA) to reduce net purchased power costs.

Value-of-Solar Factor

The Value-of-Solar Factor shall be set annually through the Austin Energy budget approval process. Effective January 1 of each calendar year, the Value-of-Solar Factor shall be the monthly average of the prospective year (12 months) Value-of-Solar assessment and either a) the prevailing Value-of-Solar assessments since October 1, 2012, or b) the previous 48 months, whichever is shorter.

Effective Date	Value-of-Solar Factor
October 1, 2012	\$0.128/kWh
January 1, 2014	\$0.107/kWh
January 1, 2015	\$0.113/kWh

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

SECONDARY VOLTAGE LESS THAN 10 KW

Application

This rate applies to secondary voltage (less than 12,470 volts nominal line to line) electric service, to which no other specific rate schedule applies, to any customer whose kW demand did not meet or exceed 10 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available.

Under this rate, electric service provided to a religious sanctuary is eligible for the House of Worship Discount described below.

A "religious sanctuary" is a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public.

The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310, 156.102 and 171.058 of the Texas Tax Code.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, the customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. Effective November 1, 2013, the House of Worship Discount rate is \$0.13087 per kWh. Effective November 1, 2014, the House of Worship Discount rate is \$0.13353 per kWh.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

SECONDARY VOLTAGE GREATER THAN OR EQUAL TO 10 KW

BUT LESS THAN 50 KW - AUSTIN

Application

This rate applies to electric service at a secondary voltage (less than 12,470 volts nominal line to line), for which no other specific rate is provided, to a customer whose point of delivery is located inside the city limits of Austin and whose metered demand for power was greater than or equal to 10 kW but was less than 50 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available. This rate shall apply for not less than twelve months following the last month in which the required metered demand level was met. If a customer has made significant changes in their connected load which prevents the customer from meeting or exceeding the minimum metered kW threshold of this rate schedule and these changes have been verified by Austin Energy, the twelve month requirement may be waived by Austin Energy.

Under this rate, electric service provided to a religious sanctuary is eligible for the House of Worship Discount described below.

A "religious sanctuary" is a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public.

The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Except as noted below, Billed kW shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor corrections as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use = 13.5 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = $13.5 \text{ kW} \times 0.90 \text{ power factor} / 0.867 \text{ power factor} = 14.0 \text{ kW}$

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays (excluding weekends) during the current billing month as indicated or recorded by metering equipment installed by Austin Energy, adjusted for power factor as described above. The customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. Effective November 1, 2013, the House of Worship Discount rate is \$0.13087 per kWh. Effective November 1, 2014, the House of Worship Discount rate is \$0.13353 per kWh.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

Power Supply Adjustment – plus an adjustment for variable costs, calculated under the Power Supply Adjustment rate schedule, multiplied by the billable kWh.

Time-Of-Use Option

In lieu of the Charges above, Customers may choose the following time-of-use charges to be applied for a term of not less than twelve consecutive billing months. Customers selecting this time-of-use option shall permit Austin Energy to install all equipment necessary for time-of-use metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. Customers selecting this option are not eligible to participate in levelized billing. Austin Energy may administratively suspend availability of this time-of-use rate option to additional customers.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Except as noted below, Billed kW shall be the metered kilowatt demand during the fifteen-minute interval of greatest use during the current billing month as indicated or recorded by metering equipment installed by Austin Energy and adjusted for power factor corrections as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use =
135 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = $135 \text{ kW} \times 0.90 \text{ power factor} / 0.867 \text{ power factor} = 140 \text{ kW}$

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays (excluding weekends) during the current billing month as indicated or recorded by metering equipment installed by Austin Energy, adjusted for power factor as described above. The customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. Effective November 1, 2013, the House of Worship Discount rate is \$0.13087 per kWh. Effective November 1, 2014, the House of Worship Discount rate is \$0.13353 per kWh.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

SECONDARY VOLTAGE GREATER THAN OR EQUAL TO

50 KW – OUTSIDE AUSTIN

Application

This rate applies to electric service at a secondary voltage (less than 12,470 volts nominal line to line), for which no other specific rate is provided, to a customer whose point of delivery is located outside the city limits of Austin and whose metered demand for power met or exceeded 50 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available. This rate shall apply for not less than twelve months following the last month in which the required metered demand level was met. If a customer has made significant changes in their connected load which prevents the customer from meeting or exceeding the minimum metered kW threshold of this rate schedule and these changes have been verified by Austin Energy, the twelve month requirement may be waived by Austin Energy.

Under this rate, electric service provided to a religious sanctuary is eligible for the House of Worship Discount described below.

A “religious sanctuary” is a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public.

The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310, 156.102 and 171.058 of the Texas Tax Code.

Character of Service

Service under this rate schedule shall be provided pursuant to Austin City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

PRIMARY VOLTAGE LESS THAN 3 MW- AUSTIN

Application

This rate applies to electric service at a primary voltage (12,470 to 69,000 volts nominal line to line) to any customer whose point of delivery is located inside the city limits of Austin and whose metered demand for power did not meet or exceed 3,000 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available. The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

Mid-Peak Hours	6:00 A.M. – 2:00 P.M. and 8:00 P.M. – 10:00 P.M. Monday – Friday 6:00 A.M. – 10:00 P.M. Saturday – Sunday
On-Peak Hours	2:00 P.M. – 8:00 P.M. Monday – Friday

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Billed kW shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use =
10,350 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = 10,350 kW x 0.90 power factor / 0.867 power factor = 10,744 kW

A customer's bill for electric service of at least 10 days under this rate schedule shall not be less than the customer charge.
