Austin, TX 78711-3326

Re: Project No. 44019; *2015 Monthly Construction Progress Reports Pursuant to P.U.C. SUBST. R. 25.83*

**Critical Infrastructure Information**

To Whom It May Concern:

The form *Instructions for Monthly Transmission Construction Progress Report for Electric Utilities*, adopted pursuant to P.U.C. SUBST. R. 25.83, requires that utilities submit locational coordinate point data and attribute data for new substations and transmission lines. The form states that the data must be submitted "on a CD, DVD or other portable media, filed confidentially with Central Records." The form also states the following: "The Commission believes that the locational coordinate point data and attribute data relate to critical infrastructure as defined in Texas Government Code § 421.001, and are designated as confidential under Texas Government Code §§ 418.177 and 418.181."

The CD filed by Sharyland Utilities, L.P. (Sharyland) today in Project No. 44019 is provided pursuant to the above-mentioned requirements of the Commission's form. The CD contains critical infrastructure information and is being filed confidentially. The information is protected from public disclosure as discussed above, and Sharyland requests that the Commission withhold the information contained on the CD from public disclosure.

Please contact me at 512-721-2661 if you have any questions. Thank you for your attention to this matter.

Respectfully submitted,

Alicia Rigler  
Counsel for Sharyland Utilities, L.P.
