The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

Section 2.01 - Application for Sewer Service

All applications for service will be made on the utility's standard application or contract form (attached in the Appendix to this tariff), will be signed by the applicant, any required fees (deposits, reconnect, tap, extension fees, etc. as applicable) will be paid and easements, if required, will be granted before service is provided by the utility. A separate application or contract will be made for each service location.

Section 2.02 - Refusal of Service

The utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the TCEQ Rules. In the event that the utility refuses to serve an applicant, the utility will inform the applicant in writing of the basis of its refusal. The utility is also required to inform the applicant that a complaint may be filed with the Commission.

Section 2.03 - Fees and Charges & Easements Required Before Service Can Be Connected

(A) Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the utility, the applicant may be required to pay a deposit as provided for in Section 1.02 - Miscellaneous Fees of this tariff. The utility will keep records of the deposit and credit interest in accordance with TCEQ Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the utility or another water or sewer utility which accrued within the last two years.

Nonresidential applicants who cannot establish credit to the satisfaction of the utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

Refund of deposit - If service is not connected, or after disconnection of service, the utility will promptly refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. The utility may refund the residential customer's deposit at any time prior to termination of utility service but must refund the deposit plus interest for any residential customer who has paid 18 consecutive billings without being delinquent.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

(B) Tap or Reconnect Fees

A new customer requesting service at a location where service has not previously been provided must pay a tap fee as provided in Section 1. A customer requesting service where service has previously been provided must pay a reconnect fee as provided in Section 1. Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to request for payment and/or commencement of construction. If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall be informed of their right to appeal such costs to the TCEQ or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's or existing customer's property(ies) is located.

Fees in addition to the regular tap fee may be charged to cover unique costs not normally incurred as permitted by 30 T. A. C. 291.86(a)(1)(C) if they are listed on this approved tariff. For example, a road bore for customers outside a subdivision or residential area could be considered a unique cost.

(C) Easement Requirement

Where recorded public utility easements on the service applicant's property do not exist or public road right-of-way easements are not available to access the applicant's property, the Utility may require the applicant to provide it with a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant. Such easement(s) shall not be used for the construction of production, storage, transmission or pressure facilities unless they are needed for adequate service to that applicant.

Section 2.04 - Utility Response to Applications for Service

After the applicant has met all the requirements, conditions and regulations for service, the utility will install tap and utility cut-off and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Except for good cause where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

Section 2.05 - Customer Responsibility

The customer will be responsible for furnishing and laying the necessary customer service pipe from the tap location to the place of consumption. Customers will not be allowed to use the utility's cutoff.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

2.06 Access to Customer's Premises

All customers or service applicants shall provide access to utility cutoffs at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply.

Section 2.07 - Back Flow Prevention Devices

No water connection shall be made to any establishment where an actual or potential contamination or system hazard exists without an approved air gap or mechanical backflow prevention assembly. The air gap or backflow prevention assembly shall be installed in accordance with the American Water Works Association (AWWA) standards C510, C511 and AWWA Manual M14 or the University of Southern California Manual of Cross-Connection Control, current edition. The backflow assembly installation by a licensed plumber shall occur at the customer's expense.

The back flow assembly shall be tested upon installation by a recognized prevention assembly tester and certified to be operating within specifications. Back flow prevention assemblies which are installed to provide protection against high health hazards must be tested and certified to be operating within specifications at least annually by a recognized back flow prevention device tester. The maintenance and testing of the back flow assembly shall occur at the customer's expense.

Section 2.10 - Billing

(A) Regular Billing

Bills from the utility will be mailed monthly unless otherwise authorized by the Commission. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. Payment for utility service is delinquent if full payment, including late fees and the regulatory assessment, is not received at the utility or the utility's authorized payment agency by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

(B) Late Fees

A late penalty of either \$5.00 or 10.0% will be charged on bills received after the due date. The penalty on delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The utility must maintain a record of the date of mailing to charge the late penalty.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

(C) Information on Bill

Each bill will provide all information required by the TCEQ Rules. For each of the systems it operates, the utility will maintain and note on the monthly bill a local or toll-free telephone number (or numbers) to which customers can direct questions about their utility service.

(D) Prorated Bills

If service is interrupted or seriously impaired for 24 consecutive hours or more, the utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

Section 2.11- Payments

All payments for utility service shall be delivered or mailed to the utility's business office. If the business office fails to receive payment prior to the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field.

Payment of an account by any means that has been dishonored and returned by the payor or payee's bank, shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve month period, the customer shall be required to pay a deposit if one has not already been paid.

Section 2.12 - Service Disconnection

(A) With Notice

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

The utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 26 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the TCEQ Rules.

(B) Without Notice

Utility service may also be disconnected without notice for reasons as described in the TCEQ Rules.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

Section 2.13 - Reconnection of Service

Utility personnel must be available during normal business hours to accept payments on the day service is disconnected and the following day unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 24 hours after the past due bill, reconnect fees and any other outstanding charges are paid or the conditions which caused service to be disconnected are corrected.

Section 2.14 - Service Interruptions

The utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

Section 2.15 - Quality of Service

The utility will plan, furnish, and maintain and operate production, treatment, storage, transmission, and collection facilities of sufficient size and capacity to provide continuous and adequate service for all reasonable consumer uses and to treat sewage and discharge effluent of the quality required by its discharge permit issued by the Commission. Unless otherwise authorized by the Commission, the utility will maintain facilities as described in the TCEQ Rules.

Section 2.16 - Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the utility's response, the utility must advise the complainant that he has recourse through the Texas Commission on Environmental Quality complaint process. Pending resolution of a complaint, the commission may require continuation or restoration of service.

The utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that a complaint may be filed with the Commission.

Section 2.17 - Customer Liability

Customer shall be liable for any damage or injury to utility-owned property shown to be caused by the customer.

SECTION 3.0 -- EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

LINE EXTENSION AND CONSTRUCTION CHARGES: NO CONTRIBUTION IN AID OF CONSTRUCTION MAY BE REQUIRED OF ANY CUSTOMER EXCEPT AS PROVIDED FOR IN THIS APPROVED EXTENSION POLICY.

The Utility is not required to extend service to any applicant outside of its certified service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with TCEQ rules and policies, and upon extension of the Utility's certified service area boundaries by the TCEQ.

The applicant for service will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the utility and the customer, or sharing of costs between the customer and other applicants prior to beginning construction.

The Utility is not required to extend service to any applicant outside of its certificated service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with TCEQ rules and policies, and upon extension of the Utility's certificated service area boundaries by the TCEQ.

Section 3.02 - Costs Utilities and Service Applicants Shall Bear

Within its certified area, the utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision.

However, if the residential customer requesting service purchased the property after the developer was notified in writing of the need to provide facilities to the utility, the utility may charge for the first 200 feet. The utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the utility's approved extension policy after receiving a written request from the utility.

Residential customers will be charged the equivalent of the costs of extending service to their property from the nearest collection line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the additional cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

SECTION 3.0 -- EXTENSION POLICY
(Continued)

Unless an exception is granted by the TCEQ's Executive Director, the residential service applicant shall not be required to pay for costs of main extensions greater than 6" in diameter for gravity wastewater lines.

Exceptions may be granted by the TCEQ Executive Director if

- § adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the utility's burden to justify that a larger diameter pipe is required for adequate service;
- § or larger minimum line sizes are required under subdivision platting requirements or building codes of municipalities within whose corporate limits or extraterritorial jurisdiction the point of use is located; or the residential service applicant is located outside the CCN service area.

If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for oversizing as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay, commercial customers with service demands greater than residential customer demands in the certified area, industrial, and wholesale customers shall be treated as developers.

If an applicant requires service other than the standard service provided by the utility, such applicant will be required to pay all expenses incurred by the utility in excess of the expenses that would be incurred in providing the standard service and connection beyond 200 feet and throughout his property including the cost of all necessary transmission facilities.

The utility will bear the full cost of any over-sizing of sewer mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional treatment facilities. Contributions in aid of construction of individual residential customers for production, storage, treatment or transmission facilities unless otherwise approved by the Commission under this specific extension policy.

SECTION 3.0 -- EXTENSION POLICY
(Continued)

Section 3.03 - Contributions in Aid of Construction

Developers may be required to provide contributions in aid of construction in amounts sufficient to furnish the development with all facilities necessary to provide for reasonable local demand requirements and to comply with Texas Commission on Environmental Quality minimum design criteria for facilities used in the production, collection, transmission, pumping, or treatment of sewage or Texas Commission on Environmental Quality minimum requirements. For purposes of this subsection, a developer is one who subdivides or requests more than two meters on a piece of property. Commercial, industrial, and wholesale customers will be treated as developers.

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the Texas Commission on Environmental Quality minimum design criteria for water production, treatment, pumping, storage and transmission.

Any service extension to a subdivision (recorded or unrecorded) may be subject to the provisions and restrictions of 30 TAC 291.86(d). When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge for facilities which must be committed to such extension compliant with the Texas Commission on Environmental Quality minimum design criteria. As provided by 30 T.A.C. 291.85(e)(3), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

A utility may only charge a developer standby fees for unrecovered costs of facilities committed to a developer's property under the following circumstances:

- \$ Under a contract and only in accordance with the terms of the contract; or
- \$ if service is not being provided to a lot or lots within two years after installation of facilities necessary to provide service to the lots has been completed and if the standby fees are included on the utility's approved tariff after a rate change application has been filed. The fees cannot be billed to the developer or collected until the standby fees have been approved by the commission or executive director.
- \$ for purposes of this section, a manufactured housing rental community can only be charged standby fees under a contract or if the utility installs the facilities necessary to provide individually metered service to each of the rental lots or spaces in the community.

SECTION 3.0 -- EXTENSION POLICY
(Continued)

Section 3.04 - Appealing Connection Costs

The imposition of additional extension costs or charges as provided by Sections 3.0 - Extension Policy of this tariff shall be subject to appeal as provided in this tariff, TCEQ rules, or the rules of such other regulatory authority as may have jurisdiction over the utility's rates and services. Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall be informed of the right to appeal such costs to the TCEQ or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's property(ies) is located.

Section 3.05 - Applying for Service

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than one service connection is desired by any individual applicant. Service application forms will be available at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions which might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap be made. A diagram, map, plat, or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary, where the meter is to be installed, along the applicant's property line may also be required with the tap request. The actual point of connection and meter installation must be readily accessible to Utility personnel for inspection, servicing, and meter reading while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's nearest service main with adequate capacity to service the applicant's full potential service demand. Beyond the initial 200 feet, the customer shall bear only the equivalent cost of extending from the nearest main. If the tap or service connection cannot be made at the applicant's desired location, it will be made at another location mutually acceptable to the applicant and the Utility. If no agreement on location can be made, the applicant may refer the matter to the TCEQ for resolution.

SECTION 3.0 -- EXTENSION POLICY
(Continued)

Section 3.06 - Qualified Service Applicant

A "qualified service applicant" is an applicant who has: (1) met all of the Utility's requirements for service contained in this tariff, TCEQ rules and/or TCEQ order, (2) has made payment or made arrangement for payment of tap fees, (3) has provided all easements and rights-of-way required to provide service to the requested location, (4) delivered an executed customer service inspection certificate to the Utility, if applicable, and (5) has executed a customer service application for each location to which service is being requested.

The Utility shall serve each qualified service applicant within its certified service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by TCEQ rules once the applicant has met all conditions precedent to achieving "qualified service applicant" status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause and the anticipated date that service will be available. The TCEQ service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a qualified service applicant as defined by TCEQ rules.

Section 3.07 - Developer Requirements

As a condition of service to a new subdivision, the Utility shall require a developer (as defined by TCEQ rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property.

APPENDIX A -- SAMPLE SERVICE AGREEMENT

From 30 TAC Chapter 290.47(b), Appendix B

SERVICE AGREEMENT

- I. PURPOSE. The NAME OF SEWER SYSTEM is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the NAME OF SEWER SYSTEM will begin service. In addition, when service to an existing connection has been suspended or terminated, the sewer system will not re-establish service unless it has a signed copy of this agreement.
- II. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.
 - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
 - C. No connection which allows water to be returned to the public drinking water supply is permitted.
 - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

III. SERVICE AGREEMENT. The following are the terms of the service agreement between the NAME OF SEWER SYSTEM (the Sewer System) and NAME OF CUSTOMER (the Customer).

- A. The Sewer System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Sewer System.
- B. The Customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Sewer System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Sewer System's normal business hours.

GENERAL PROVISIONS. Each Debtor's obligations under this Agreement are independent of the obligations of any other Debtor. Secured Party may sue each Debtor individually or together with any other Debtor. Secured Party may release any part of the Property and Debtor will remain obligated under this Agreement. The duties and benefits of this Agreement will bind the successors and assigns of Debtor and Secured Party. No modification of this Agreement is effective unless made in writing and signed by Debtor and Secured Party. Whenever used, the plural includes the singular and the singular includes the plural. Time is of the essence.

APPLICABLE LAW. This Agreement is governed by the laws of the state in which Secured Party is located. In the event of a dispute, the exclusive forum, venue, and place of jurisdiction will be the state in which Secured Party is located, unless otherwise required by law. If any provision of this Agreement is unenforceable by law, the unenforceable provision will be severed and the remaining provisions will still be enforceable.

NAME AND LOCATION. Debtor's name indicated on page 1 is Debtor's exact legal name. If Debtor is an individual, Debtor's address is Debtor's principal residence. If Debtor is not an individual, Debtor's address is the location of Debtor's chief executive offices or sole place of business. If Debtor is an entity organized and registered under state law, Debtor has provided Debtor's state of registration on page 1. Debtor will provide verification of registration and location upon Secured Party's request. Debtor will provide Secured Party with at least 30 days notice prior to any change in Debtor's name, address, or state of organization or registration.

WARRANTIES AND REPRESENTATIONS. Debtor has the right, authority, and power to enter into this Agreement. The execution and delivery of this Agreement will not violate any agreement governing Debtor or Debtor's property, or in which Debtor is a party. Debtor makes the following warranties and representations which continue as long as this Agreement is in effect:

- (1) Debtor is duly organized and validly existing in all jurisdictions in which Debtor does business;
- (2) the execution and performance of the terms of this Agreement have been duly authorized, have received all necessary governmental approval, and will not violate any provision of law or order;
- (3) other than previously disclosed to Secured Party, Debtor has not changed Debtor's name or principal place of business within the last 10 years and has not used any other trade or fictitious name; and
- (4) Debtor does not and will not use any other name without Secured Party's prior written consent.

Debtor owns all of the Property, and Secured Party's claim to the Property is ahead of the claims of any other creditor, except as otherwise agreed and disclosed to Secured Party prior to any advance on the Secured Debts. The Property has not been used for any purpose that would violate any laws or subject the Property to forfeiture, or seizure.

DUTIES TOWARD PROPERTY. Debtor will protect the Property and Secured Party's interest against any competing claim. Except as otherwise agreed, Debtor will keep the Property in Debtor's possession at the address indicated on page 1 of this Agreement. Debtor will keep the Property in good repair and use the Property only for purposes specified on page 1. Debtor will not use the Property in violation of any law and will pay all taxes and assessments levied or assessed against the Property. Secured Party has the right of reasonable access to inspect the Property, including the right to require Debtor to assemble and make the Property available to Secured Party. Debtor will immediately notify Secured Party of any loss or damage to the Property. Debtor will prepare and keep books, records, and accounts about the Property and Debtor's business, to which Debtor will allow Secured Party reasonable access.

Debtor will not sell, offer to sell, license, lease, or otherwise transfer or encumber the Property without Secured Party's prior written consent. Any disposition of the Property will violate Secured Party's rights, unless the Property is inventory sold in the ordinary course of business at fair market value. If the Property includes chattel paper or instruments, either as original collateral or as proceeds of the Property, Debtor will record Secured Party's interest on the face of the chattel paper or instruments.

If the Property includes accounts, Debtor will not settle any account for less than the full value, dispose of the accounts by assignment, or make any material change in the terms of any account without Secured Party's prior written consent. Debtor will reflect all accounts in the ordinary course of business, unless otherwise required by Secured Party. Debtor will keep the proceeds of the accounts, and any goods returned to Debtor, in trust for Secured Party and will not commingle the proceeds or returned goods with any of Debtor's other property. Secured Party has the right to require Debtor to pay Secured Party the full price on any returned items. Secured Party may require account debtors to make payments under the accounts directly to Secured Party. Debtor will deliver the accounts to Secured Party at Secured Party's request. Debtor will give Secured Party all statements, reports, certificates, lists of account debtors (showing names, addresses, and amounts owing), invoices applicable to each account, and any other data pertaining to the accounts as Secured Party requests.

If the Property includes farm products, Debtor will provide Secured Party with a list of the buyers, commission merchants, and selling agents to or through whom Debtor may sell the farm products. Debtor authorizes Secured Party to notify any additional parties regarding Secured Party's interest in Debtor's farm products, unless prohibited by law. Debtor agrees to plant, cultivate, and harvest crops in due season. Debtor will be in default if any loan proceeds are used for a purpose that will contribute to excessive erosion of highly erodible land or to the conversion of wetland to produce or to make possible the production of an agricultural commodity, further explained in 7 C.F.R. Part 1940, Subpart G, Exh. B, M.

If Debtor pledges the Property to Secured Party (delivers the Property into the possession or control of Secured Party or a designated third party), Debtor will, upon receipt, deliver any proceeds and products of the Property to Secured Party. Debtor will provide Secured Party with any notices, documents, financial statements, reports, and other information relating to the Property Debtor receives as the owner of the Property.

PERFECTION OF SECURITY INTEREST. Debtor authorizes Secured Party to file a financing statement covering the Property. Debtor will comply with, facilitate, and otherwise assist Secured Party in connection with obtaining possession or control over the Property for purposes of perfecting Secured Party's interest under the Uniform Commercial Code.

INSURANCE. Debtor agrees to keep the Property insured against the risks reasonably associated with the Property until the Property is released from this Agreement. Debtor may choose the insurance company, subject to Secured Party's approval, which will not be unreasonably withheld. Debtor will give Secured Party and the insurance provider immediate notice of any loss. Secured Party may apply the insurance proceeds toward the Secured Debts. Secured Party may require additional security as a condition of

permitting any insurance proceeds to be used to repair or replace the Property. If Secured Party acquires the Property in damaged condition, Debtor's rights to any insurance policies and proceeds will pass to Secured Party to the extent of the Secured Debts. Debtor will immediately notify Secured Party of the cancellation or termination of insurance.

COLLATERAL PROTECTION INSURANCE NOTICE

As part of this Agreement, Debtor gives Secured Party a security interest in the Property described on page 1. Debtor is required to maintain insurance on the Property in an amount Secured Party specifies, subject to applicable law. Debtor agrees to purchase the insurance from an insurer authorized to do business in Texas or an eligible surplus lines insurer to the extent permitted by law. Debtor will name Secured Party as loss payee on the insurance policy. Debtor may be required to deliver a copy of the property insurance policy and proof of payment of premiums to Secured Party. If Debtor fails to meet any of these requirements, Secured Party may obtain collateral protection insurance on Debtor's behalf. Secured Party is not required to purchase any type or amount of insurance. Secured Party may obtain replacement cost insurance if authorized under applicable law, subject to policy limits. If Secured Party purchases insurance for the Property, Debtor will be responsible for the cost of that insurance, including interest and any other charges incurred by Secured Party in connection with the placement of collateral protection insurance to the extent permitted by law. Debtor understands that insurance obtained by Secured Party may cost significantly greater than the cost of insurance Debtor could have obtained. Amounts that Debtor owes are due and payable upon demand or on such other terms as Secured Party requires to the extent permitted by law.

AUTHORITY TO PERFORM. Debtor authorizes Secured Party to do anything Secured Party deems reasonably necessary to protect the Property and Secured Party's interest in the Property. If Debtor fails to perform any of Debtor's duties under this Agreement, Secured Party is authorized without notice to Debtor to perform the duties or cause them to be performed. These authorizations include, but are not limited to, permission to pay for the repair, maintenance, and preservation of the Property and take any action to realize the value of the Property. Secured Party's authority to perform for Debtor does not create an obligation to perform, and Secured Party's failure to perform will not preclude Secured Party from exercising any other rights under the law or this Agreement.

If Secured Party performs for Debtor, Secured Party will use reasonable care. Reasonable care will not include any steps necessary to preserve rights against prior parties or any duty to take action in connection with the management of the Property.

If Secured Party comes into possession of the Property, Secured Party will preserve and protect the Property to the extent required by law. Secured Party's duty of care with respect to the Property will be satisfied if Secured Party exercises reasonable care in the safekeeping of the Property or in the selection of a third party in possession of the Property.

Secured Party may enforce the obligations of an account debtor or other person obligated on the Property. Secured Party may exercise Debtor's rights with respect to the account debtor's or other person's obligations to make payment or otherwise render performance to Debtor, and enforce any security interest that secures such obligations.

PURCHASE MONEY SECURITY INTEREST. If the Property includes items purchased with the Secured Debts, the Property purchased with the Secured Debts will remain subject to Secured Party's security interest until the Secured Debts are paid in full. Payments on any non-purchase money loan also secured by this Agreement will not be applied to the purchase money loan. Payments on the purchase money loan will be applied first to the non-purchase money portion of the loan, if any, and then to the purchase money portion in the order in which the purchase money Property was acquired. If the purchase money Property was acquired at the same time, payments will be applied in the order Secured Party selects. No security interest will be terminated by application of this formula.

DEFAULT. Debtor will be in default if:

- (1) Debtor (or Obligor, if not the same) fails to make a payment in full when due;
- (2) Debtor fails to perform any condition or keep any covenant on this or any debt or agreement Debtor has with Secured Party;
- (3) a default occurs under the terms of any instrument or agreement evidencing or pertaining to the Secured Debts;
- (4) anything else happens that either causes Secured Party to reasonably believe that Secured Party will have difficulty in collecting the Secured Debts or significantly impairs the value of the Property.

REMEDIES. After Debtor defaults and after Secured Party gives any legally required notice and opportunity to cure the default, Secured Party may at Secured Party's option do any one or more of the following:

- (1) make all or any part of the Secured Debts immediately due and accrue interest at the highest post-maturity interest rate;
- (2) require Debtor to gather the Property and make it available to Secured Party in a reasonable fashion;
- (3) enter upon Debtor's premises and take possession of all or any part of Debtor's property for purposes of preserving the Property or its value and use and operate Debtor's property to protect Secured Party's interest, all without payment or compensation to Debtor;
- (4) use any remedy allowed by state or federal law, or provided in any agreement evidencing or pertaining to the Secured Debts.

If Secured Party repossesses the Property or enforces the obligations of an account debtor, Secured Party may keep or dispose of the Property as provided by law. Secured Party will apply the proceeds of any collection or disposition first to Secured Party's expenses of enforcement, which includes reasonable attorneys' fees and legal expenses to the extent not prohibited by law, and then to the Secured Debts. Debtor (or Obligor, if not the same) will be liable for the deficiency, if any.

By choosing any one or more of these remedies, Secured Party does not give up the right to use any other remedy. Secured Party does not waive a default by not using a remedy.

WAIVER. Debtor waives all claims for damages caused by Secured Party's acts or omissions where Secured Party acts in good faith.

NOTICE AND ADDITIONAL DOCUMENTS. Where notice is required, Debtor agrees that 10 days prior written notice will be reasonable notice to Debtor under the Uniform Commercial Code. Notice to one party is notice to all parties. Debtor agrees to sign, deliver, and file any additional documents and certifications Secured Party considers necessary to perfect, continue, or preserve Debtor's obligations under this Agreement and to confirm Secured Party's lien status on the Property.
