CERTIFICATE OF CONVENIENCE AND NECESSITY (CCN)**

GENERAL INFORMATION

★★★ THIS APPLICATION IS NOT A RATE CHANGE APPLICATION. THE APPROPRIATE FORMS NEEDED TO FILE A RATE CHANGE APPLICATION MAY BE OBTAINED BY CONTACTING THE UTILITIES AND DISTRICTS SECTION, TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ). ★★★

Pursuant to V.T.C.A., Water Code, Chapter 13, Subchapter G:

- ☐ CCNs *may be obtained* by any retail public water and sewer utility.
- ☐ CCNs *are required* for
 - a) Investor Owned Utilities (IOU);
 - b) Non-profit, member-owned, member-controlled water supply or sewer service corporations (WSC) incorporated under Water Code Chapter 67; and
 - c) affected counties.
- ☐ CCNs *may be required* for political subdivisions, except affected counties, before utility service can be provided to an area already lawfully being served.

A CCN gives the holder:

- ☐ the legal right to provide water and/or sewer utility service;
- ☐ for compensation, either directly through a monthly rate or indirectly through maintenance fees, property owners fees, etc.;
- ☐ a delineated service area; **AND**
- ☐ obligates the certificate holder to provide service to every customer and qualified applicant who requests service within that area.

A CCN is *not required* when service is either submetered pursuant to Water Code, Chapter 13, Subchapter M or included in the rental of the property.

IOUs and WSCs with 15 or less potential connections may register as "exempt" and then are not required to possess a CCN for their service area if they meet the exemption criteria.

If this application was downloaded from the TCEQ web site or sent via E-mail, it shall not be changed, altered or amended from its original form only available from the Commission.

PROCESSING YOUR CCN APPLICATION

FLOW CHART

Enclosed in this packet is a flow chart of the review process. Your application will go through an Administrative Review and, when accepted for filing, through a Technical Review. For uncontested applications, processing time depends on the response time of the applicant. Contested applications generally take longer because of the need for scheduling a public hearing, and processing time depends on whether a settlement agreement between the applicant and the protestor(s) is reached. The dates provided in the flow chart are generally the time it takes to process an uncontested application.

ADMINISTRATIVE REVIEW OF YOUR CCN APPLICATION

- ☐ Your application will be reviewed for completeness by the Commission staff within ten (10) working days after it is received in our offices.
- ☐ If necessary, you may be requested to provide additional information within **thirty (30)** days to complete the application.
- ☐ Proposed notice forms are included with the application.
- ☐ If the application is administratively incomplete, you will be sent a letter that outlines the application's deficiencies and describing what you need to do to correct the deficiencies
 - a) After receiving that letter, you will have **thirty (30)** days to make the necessary corrections
 - b) **If you fail to make the corrections in full**
 - (a) the application will be returned,
 - (b) the application fee will be forfeited, and
 - (c) if you are already operating a system, you will be referred for enforcement action which may include administrative penalties of up to \$500 per day.

NOTICE

The Commission cannot grant a CCN until proper notice of the application has been given. It is the applicant's responsibility to ensure that proper notice is given. Notice forms for publication, neighboring cities and systems, and customers are included with this application to use in preparing your proposed notices. These notice forms are also available in Spanish upon request. If the applicant is an operating IOU currently providing service without a CCN, then proposed notices must be provided for publication, to neighboring cities and systems and current customers in the proposed service area. All three forms must be completed and submitted with the application. However, if the applicant has no customers in the proposed area at the time of filing and is only proposing to provide service at some future date, or if the applicant is a WSC or political subdivision, then only the notices for publication and neighboring cities and systems must be submitted. Do not publish the notice or send copies of the proposed notices or maps to anyone at the time you submit this application to the Commission. Your proposed notices and maps will be reviewed for completeness. When your application is accepted for filing, you will be directed to provide the appropriate notices for publication, to the neighboring cities and systems and, if necessary, to current customers.

TECHNICAL REVIEW OF YOUR CCN APPLICATION

When the application is complete, you will be notified by mail and be required

- ☐ to publish notice once each week for two (2) consecutive weeks in a newspaper of general circulation in your local area and county. If the proposed area is in more than one county, publication in each county is required;
- ☐ to provide a copy of the individual notice with copy of location map (CCN map) to neighboring cities and systems within
 - a) two (2) miles of your proposed service area, if you are an existing retail public utility amending the existing service area or
 - b) five (5) miles if you are obtaining a new CCN to serve a new service area; and
 - c) to provide individual mailed notice with copy of location map (CCN map) to all affected current customers if you are required to have a CCN but are currently providing service without a CCN;

If the application is technically incomplete, you will be sent a letter that outlines the application's deficiencies and describing what you need to do to correct the deficiencies

- ☐ After receiving that letter, you will have **thirty (30)** days to make the necessary corrections
- ☐ **If you fail to make the corrections in full,**
 - a) the application will be returned
 - b) the application fee will be forfeited and

- c) **if you are already operating a system, you will be referred for enforcement action which may include administrative penalties of up to \$500 per day.**

V.T.C.A. Water Code Section 13.246(c) requires the Commission to consider the following factors before it can issue a CCN:

- ☐ the adequacy of service currently provided to the requested area,
- ☐ the need for additional service in the requested area,
- ☐ the effect of the granting of a certificate on a recipient of the certificate and on any retail public utility of the same kind already serving the proximate area,
- ☐ the ability of the applicant to provide adequate service,
- ☐ the feasibility of obtaining service from an adjacent retail public utility,
- ☐ the financial stability of the applicant, including, the adequacy of the applicant's debt-equity ratio,
- ☐ environmental integrity, **AND**
- ☐ the probable improvement of service or lowering of cost to consumers in that area resulting from the granting of the certificate.

In addition to these factors,

- ☐ the Commission must ensure that the applicant possesses the financial, managerial, and technical capability to provide continuous and adequate service **AND**
- ☐ the applicant must also demonstrate that regionalization or consolidation with another retail public utility is not economically feasible.

If there are no protests, you will be provided a copy of the technical staff recommendation and proposed CCN. If you have any questions or concerns, you should contact the technical staff person assigned to your application immediately. If you disagree with the staff recommendation and/or proposed CCN, the application will be considered contested, and a hearing may be requested.

If the application is contested and a hearing is requested, the application may be referred to the State Office of Administrative Hearings (SOAH). During the preliminary hearing, the presiding Administrative Law Judge (ALJ) may give the parties time to negotiate a settlement. Alternative Dispute Resolution (ADR) is available upon request of all of the parties. If a settlement is reached, the application will be remanded to staff for administrative processing. If a settlement is not reached, a discovery schedule and a date for an evidentiary hearing will be set. The ALJ will take testimony from each party and present a report to the Commission to consider in making a final decision on the application.

The completed application and copies should be sent to:
