Re: Service Availability Request

Dear Johnston Water Utility:

I am contacting you on behalf of 615 Willow Creek Development, Ltd. ("Developer"). Developer is in the process of working with Harris County Improvement District No. 17 ("District") and Aqua Texas, Inc. ("Aqua Texas") to obtain approval from the Texas Commission on Environmental Quality ("TCEQ") and Public Utility Commission of Texas ("PUC") for a new stand-alone public water system, new stand-alone wastewater treatment plant/collection system, and amended Aqua Texas water and sewer certificates of convenience and necessity in Harris County, Texas. These facilities and CCNs are planned for use to provide service to property within the District that comprises the 620.652 acres shown in **Attachment A** (the "Property").

You were identified as a retail public utility with either a public drinking water supply system, sewer system, a water CCN, a sewer CCN, or a combination of same within a two-mile radius of the certificated water and sewer service areas and systems Developer plans to establish with Aqua Texas. PUC and TCEQ rules require that we contact neighboring retail public utilities as described to determine if an existing retail public utility is willing to provide retail water or sewer utility service to the Property in a manner that is competitive with what can be provided by the proposed new systems. Your service would need to be sufficient to meet the TCEQ/PUC minimum service standards plus local demands to the Property as described by this letter, thereby providing continuous and adequate service to the consuming public. Also, please be advised that the development Property is partially located within the extra-territorial jurisdiction ("ETJ") of the City of Houston and the statutory procedure for requesting its consent must be followed to establish CCNs for the Property.

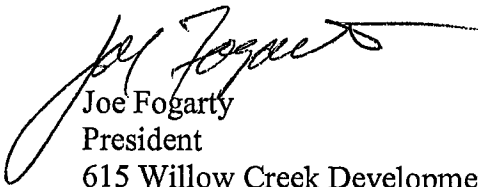

Within the next twelve months, Developer anticipates a need for water and sewer service to the Property sufficient to supply 200 living unit equivalents ("LUEs") (one LUE should be considered approximately 250 gallons per day). Within the next five years, at full build-out Developer anticipates a need for water and sewer service to the Property sufficient to supply 670 LUEs. Development within the Property is anticipated to be commercial, not residential.

In accordance with PUC/TCEQ requirements, Developer hereby requests retail water and sewer utility service from your retail public utility for development of the Property as described. If you are ready, willing, and able to provide water or sewer utility service sufficient to serve the

Property in the manner described for this development, please return a copy of this letter with the included questionnaire completed and indicating your proposal. You may fax your response to Dan Dodson at 281-260-9798 or email it to him at dodson1331@gmail.com.

Your timely response to this inquiry is greatly appreciated. Please feel free to attach additional sheets or supporting documents as necessary to answer each question in the water and sewer service questionnaires. Please be advised that your response will be filed with the PUC, and, potentially, the TCEQ as required. If you do not respond within twenty days of the date of this letter, it will be presumed that you do not desire to or cannot provide retail water or sewer utility service to the Property in the manner needed. Your lack of response will also be reported to the PUC or TCEQ as required.

Sincerely,

Joe Fogarty
President
615 Willow Creek Development, Ltd.

Enclosures.

SERVICE QUESTIONNAIRE - WATER

1. Are you willing to provide water utility service to the property identified in **Attachment A** (the "Property")?

____yes ____no (mark appropriate statement with an X)

Please complete Question Nos. 2-11 only if your response to Question No. 1 was yes.

2. Do you currently have the service capabilities to provide continuous and adequate water utility service to the Property except for the mains necessary to interconnect the Property with your existing water utility system? ____yes ____no

3. Will you have to build additional water service capacities to serve the Property? ____yes ____no

4. What are the additional water service capacities that will be required for you to serve the Property?

5. What is the estimated cost for you to provide water service to the Property? \$_____

6. Of the amount identified in response to Question No. 5, what amount will be paid by the Developer and what amount will be paid by your retail public utility?

\$_____ to be paid by Developer \$_____ to be paid by your retail public utility

7. When will water service be made available by you to the Property?

8. Are there any other requirements for obtaining water service to the Property from you?

9. Has your water system been compliant with all TCEQ and PUC regulations for at least the past five consecutive years? ____yes ____no

10. Has your water system been compliant with all applicable non-TCEQ/PUC Federal, state, and local health, safety, and environmental statutes and regulations for at least the past five consecutive years? ____yes ____no

11. What are your retail water utility service rates? _____

Re: Service Availability Request

Dear Harris County Municipal Utility District ("HCMUD") 281:

I am contacting you on behalf of 615 Willow Creek Development, Ltd. ("Developer"). Developer is in the process of working with Harris County Improvement District No. 17 ("District") and Aqua Texas, Inc. ("Aqua Texas") to obtain approval from the Texas Commission on Environmental Quality ("TCEQ") and Public Utility Commission of Texas ("PUC") for a new stand-alone public water system, new stand-alone wastewater treatment plant/collection system, and amended Aqua Texas water and sewer certificates of convenience and necessity in Harris County, Texas. These facilities and CCNs are planned for use to provide service to property within the District that comprises the 620.652 acres shown in **Attachment A** (the "Property").

You were identified as a retail public utility with either a public drinking water supply system, sewer system, a water CCN, a sewer CCN, or a combination of same within a two-mile radius of the certificated water and sewer service areas and systems Developer plans to establish with Aqua Texas. PUC and TCEQ rules require that we contact neighboring retail public utilities as described to determine if an existing retail public utility is willing to provide retail water or sewer utility service to the Property in a manner that is competitive with what can be provided by the proposed new systems. Your service would need to be sufficient to meet the TCEQ/PUC minimum service standards plus local demands to the Property as described by this letter, thereby providing continuous and adequate service to the consuming public. Also, please be advised that the development Property is partially located within the extra-territorial jurisdiction ("ETJ") of the City of Houston and the statutory procedure for requesting its consent must be followed to establish CCNs for the Property.

Within the next twelve months, Developer anticipates a need for water and sewer service to the Property sufficient to supply 200 living unit equivalents ("LUEs") (one LUE should be considered approximately 250 gallons per day). Within the next five years, at full build-out Developer anticipates a need for water and sewer service to the Property sufficient to supply 670 LUEs. Development within the Property is anticipated to be commercial, not residential.

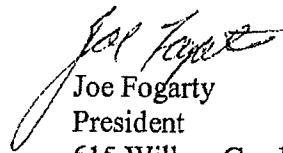

In accordance with PUC/TCEQ requirements, Developer hereby requests retail water and sewer utility service from your retail public utility for development of the Property as described.

HCMUD 281
February 2, 2015
Page 2

If you are ready, willing, and able to provide water or sewer utility service sufficient to serve the Property in the manner described for this development, please return a copy of this letter with the included questionnaire completed and indicating your proposal. You may fax your response to Dan Dodson at 281-260-9798 or email it to him at dodson1331@gmail.com.

Your timely response to this inquiry is greatly appreciated. Please feel free to attach additional sheets or supporting documents as necessary to answer each question in the water and sewer service questionnaires. Please be advised that your response will be filed with the PUC, and, potentially, the TCEQ as required. If you do not respond within twenty days of the date of this letter, it will be presumed that you do not desire to or cannot provide retail water or sewer utility service to the Property in the manner needed. Your lack of response will also be reported to the PUC or TCEQ as required.

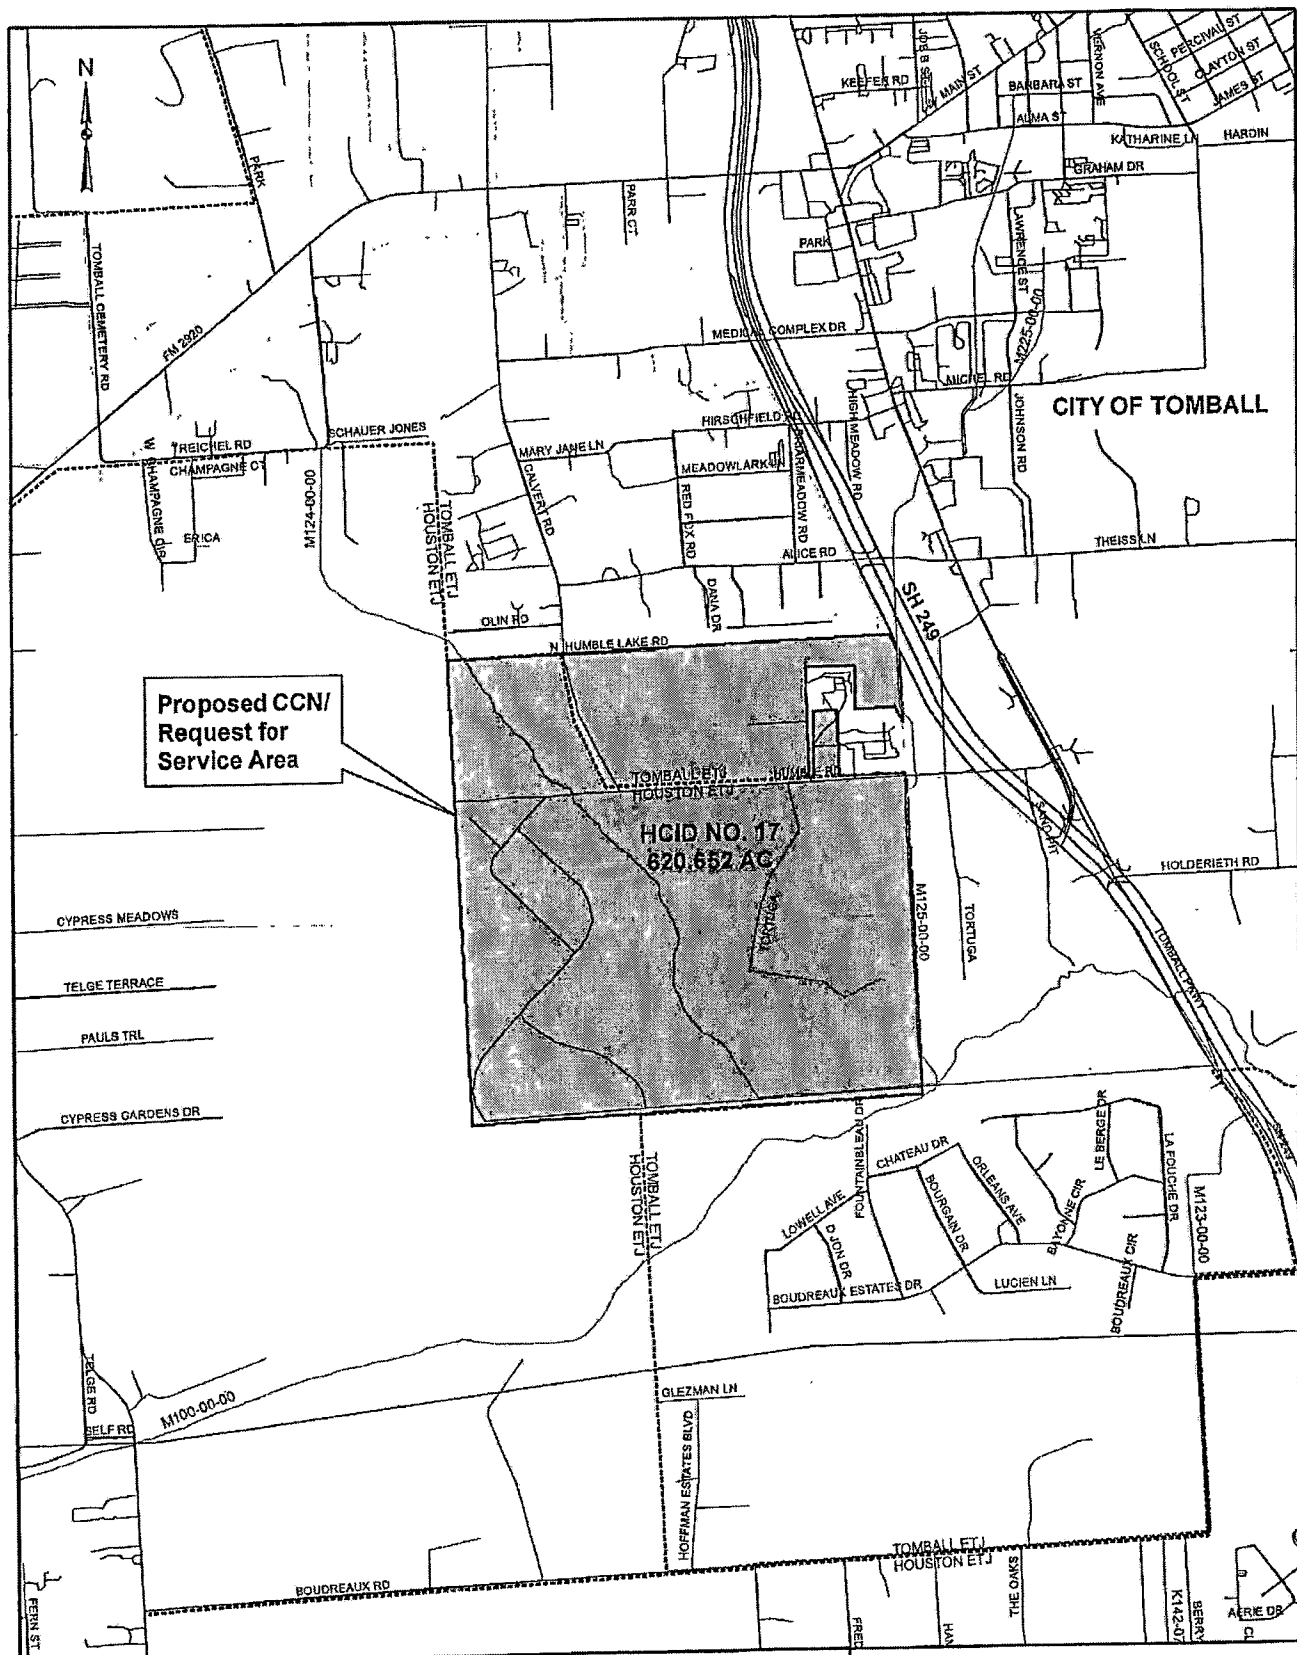

Sincerely,

Joe Fogarty
President
615 Willow Creek Development, Ltd.

Re: Service Availability Request

Dear Northwest Harris County Municipal Utility District ("HCMUD") 015:

I am contacting you on behalf of 615 Willow Creek Development, Ltd. ("Developer"). Developer is in the process of working with Harris County Improvement District No. 17 ("District") and Aqua Texas, Inc. ("Aqua Texas") to obtain approval from the Texas Commission on Environmental Quality ("TCEQ") and Public Utility Commission of Texas ("PUC") for a new stand-alone public water system, new stand-alone wastewater treatment plant/collection system, and amended Aqua Texas water and sewer certificates of convenience and necessity in Harris County, Texas. These facilities and CCNs are planned for use to provide service to property within the District that comprises the 620.652 acres shown in Attachment A (the "Property").

You were identified as a retail public utility with either a public drinking water supply system, sewer system, a water CCN, a sewer CCN, or a combination of same within a two-mile radius of the certificated water and sewer service areas and systems Developer plans to establish with Aqua Texas. PUC and TCEQ rules require that we contact neighboring retail public utilities as described to determine if an existing retail public utility is willing to provide retail water or sewer utility service to the Property in a manner that is competitive with what can be provided by the proposed new systems. Your service would need to be sufficient to meet the TCEQ/PUC minimum service standards plus local demands to the Property as described by this letter, thereby providing continuous and adequate service to the consuming public. Also, please be advised that the development Property is partially located within the extra-territorial jurisdiction ("ETJ") of the City of Houston and the statutory procedure for requesting its consent must be followed to establish CCNs for the Property.

Within the next twelve months, Developer anticipates a need for water and sewer service to the Property sufficient to supply 200 living unit equivalents ("LUEs") (one LUE should be considered approximately 250 gallons per day). Within the next five years, at full build-out Developer anticipates a need for water and sewer service to the Property sufficient to supply 670 LUEs. Development within the Property is anticipated to be commercial, not residential.

In accordance with PUC/TCEQ requirements, Developer hereby requests retail water and sewer utility service from your retail public utility for development of the Property as described.

Northwest HCMUD 015
February 2, 2015
Page 2

If you are ready, willing, and able to provide water or sewer utility service sufficient to serve the Property in the manner described for this development, please return a copy of this letter with the included questionnaire completed and indicating your proposal. You may fax your response to Dan Dodson at 281-260-9798 or email it to him at dodson1331@gmail.com.

Your timely response to this inquiry is greatly appreciated. Please feel free to attach additional sheets or supporting documents as necessary to answer each question in the water and sewer service questionnaires. Please be advised that your response will be filed with the PUC, and, potentially, the TCEQ as required. If you do not respond within twenty days of the date of this letter, it will be presumed that you do not desire to or cannot provide retail water or sewer utility service to the Property in the manner needed. Your lack of response will also be reported to the PUC or TCEQ as required.

Sincerely,

Joe Fogarty
President
