Who are you and who do you represent?

I am Steve Colson, General Partner of the STiCK Family Limited Partnership. I represent all of the partners of the Limited Partnership.

Do you own property that would be impacted by the construction and location of the Center Point transmission line?

Yes. The STiCK Family Limited Partnership owns 428+ acres that would be impacted by proposed route Y2.

What is your concern regarding the proposed Center Point electric transmission line and its location?

We are Tree Farmers. We grow and harvest trees for commercial use. Location of the Center Point transmission line along segment Y2 would adversely impact our current and future tree crops, as well as greatly diminish our property value. Segment Y2 would isolate and confine approximately 90 acres which would be bound on the east side by a currently existing pipeline, and the west side by the proposed Center Point transmission line.

How can you be contacted?
