Bellewood Water Supply Corporation (Bellewood WSC) is a defunct corporation. The City of Houston has no ownership interest in Bellewood WSC but began providing water service to its customers in 2009. TCEQ wrote a letter in 2009 (attached) stating it would cancel Bellewood WSC's Certificate of Convenience and Necessity (CCN) but failed to do so. The City of Houston has been receiving annual Notice of Violations for Bellewood's expired registration.

Re: Focused Investigation to Delete a Public Water Supply (PWS) at:
Bellewood WSC, 1212 Drury Ln., Houston, Harris County, Texas
TCEQ ID No: 1011945, Investigation No. 781953

Dear Mr. Giroir:

On November 10, 2009, Mr. Huyen D. Luu, P.E. of the Texas Commission on Environmental Quality (TCEQ) Houston Region Office conducted a field visit of the above-referenced facility to verify the activity status of the above-referenced public water system. This investigation found that this water system has been permanently abandoned and removed from service. Water service to the area that was previously served by the above-referenced public water system is now provided by City of Houston which has assumed sanitary control over this water system's service area. Because the information obtained appears to adequately address the stipulations associated with the deletion of a public water system from this agency's records, the Bellewood WSC is officially deleted as of the date of this letter.

Please note that, if not already plugged, both of the abandoned water wells are required to be plugged according to Title 16 Texas Administrative Code Chapter 76 (relating to Water Well Drillers and Water Well Pump Installers). Information regarding the plugging of water wells may be obtained by contacting your local groundwater conservation district, a licensed water well driller, or the Water Well Drillers Program with the Texas Department of Licensing and Regulation at (512) 463-7880 or 1-800-803-9202.

The Texas Commission on Environmental Quality appreciates your assistance in this matter and your compliance efforts to ensure protection of the State's environment.
