MOTION TO CORRECT ADMINSTRATIVE ERROR IN INTERIM TARIFF

Quadvest LP ("Quadvest") files this motion to correct an administrative error made in the filing of the compliance tariff in this docket. In support thereof, Quadvest respectfully shows as follows:

Background Information

1. On May 24, 2016, a prehearing conference was convened in which the parties announced they had reached a unanimous settlement ("Stipulation"). Commission Staff, OPUC, and Tommie Breedlove appeared at the prehearing and announced agreement with the Stipulation. True Vine Missionary Church ("True Vine"), which was not present at the prehearing conference, was contacted via telephone to determine whether it was in agreement with the settlement. True Vine, through its duly authorized representative, Lyndia Clark, represented that it approved of the Stipulation. (Quadvest, Staff, OPUC, Breedlove and True Vine will be collectively referred to as the "Parties.")
2. The Stipulation was read into the record at the prehearing conference on May 24, 2016 and filed of record on November 1, 2016.
3. On May 27, 2016, the Parties filed a motion for interim rates ("Motion"). The motion for interim rates outlined the parties Stipulation, as announced on May 24, 2016.
4. On May 31, 2016, the Administrative Law Judge in this proceeding issued Order No. 8, approving the Motion and ordering Staff to file a compliance tariff. Staff complied with Order No. 8 by filing a compliance tariff on June 1, 2016.
5. Unbeknownst to the Parties, there was an administrative error in the tariff that was filed. The tariff incorporated a groundwater conservation pass through fee that was not an

approved fee by the Commission, nor was it consistent with the interim rates identified in the Motion or Order No. 8. It appears that Staff inadvertently incorporated an earlier tariff rather than the approved pass through tariff at that time. The earlier tariff, incorporated a groundwater pass through fee of \$2.39. However, the approved fee, approved by the Commission on February 24, 2016, incorporated a groundwater pass through fee of \$2.60. (*See Order of Approval, Application of Quadvest, L.P., to Implement a Pass-Through Rate Change, Order of Approval (February 24, 2016)*)(Attached hereto as Exhibit 1).

6. The Motion made no mention of any change in the groundwater pass through fee, nor was there any discussion, notice, testimony or request in this proceeding, to alter that approved pass through fee.
7. Order No. 8 did not authorize any change to the groundwater pass through fee, nor was there ever any mention of such a change. Exhibit A to Order No. 8, which reflected the approved interim rates, is attached hereto as Exhibit 2.
8. The only order of this Commission authorizing a change in the groundwater pass through fee occurred on February 24, 2016, and ordered Quadvest to implement a \$2.60 pass through fee. (*Compare Ex. 1, Order of Approval, Application of Quadvest, L.P., to Implement a Pass-Through Rate Change, Order of Approval (February 24, 2016) with Order No. 8, Docket 44809, Application of Quadvest L.P. for Rate/Tariff Change (May 31, 2016).*
9. While the parties reviewed the tariff before filing, the parties were reviewing the tariff provisions that were part of the stipulation, and no party realized the error in the pass through portion of the tariff, as the pass through portion was to be unchanged. Neither counsel for Staff nor counsel for Quadvest was made aware of this administrative error until a customer complaint occurred in or about October, 2016.
10. The portion of the tariff on file referring to a groundwater pass through fee of \$2.39 per 1000 gallons is void because it is not consistent with Order No. 8, nor is it consistent with the Commission approved order setting the groundwater fee at \$2.60 per 1000 gallons. Quadvest had no authority to charge a rate other than that approved by the Commission and Quadvest acted within its authority by charging the approved groundwater pass

through fee. Accordingly, Quadvest requests that the Examiner permit substitution of the portion of the tariff referring to the groundwater fee with the correct Commission approved groundwater pass through. The correct page of the tariff, which is to replace page 4 of the Compliance Tariff, is attached hereto as Exhibit 3.

Argument and Legal Authorities

11. Pursuant to PUC Subst. R. 24.21, “[a] utility may not directly or indirectly demand, charge, or collect any rate or charge, or impose any classifications, practices, rules, or regulations different from those prescribed in its *approved tariff* filed with the commission . . .” Furthermore, “[t]ariff filings made in response to an order issued by the commission must include a transmittal letter stating that the tariffs attached are in compliance with the order, giving the docket number, date of the order, a list of tariff sheets filed, and any other necessary information . . . All tariff sheets must comply with all other sections in this chapter *and must include only the changes ordered.*”
12. Furthermore, under PUC Subst. R. 24.29, neither Quadvest nor Staff have the authority to unilaterally make changes to tariffs or set interim rates. Rather, the Commission must approve interim rates based on the criteria set forth in Section 24.29(a) (“The commission may, on a motion by the commission staff or the appellant under TWC § 13.043(a), (b), or (f), as amended, establish interim rates to remain in effect until a final decision is made.”)
13. In this case, through an administrative error, the groundwater pass through fee was identified as \$2.39 per \$1000 gallons of water. This rate was never approved by the Examiner or the Commission. Order No. 8 makes no mention of, or changes, to the Commission approved groundwater pass through fee of \$2.60 per 1000 gallons. Therefore, there was never an “approved” tariff authorizing a change to \$2.39 and any such compliance tariff filing would be void as to that particular change. *See* PUC. Subst. R. 24.21 (“All tariff sheets must comply with all other sections in this chapter *and must include only the changes ordered*”); *Moore v. Blagge*, 91 Tex. 151, 155 (Tex. 1897) (sale in question was void because it was not authorized by the order of court in that the order did not authorize the making of a sale or title to McLemore or others). Accordingly, Quadvest respectfully requests that the Examiner enter an order declaring the change of the

groundwater pass through fee from \$2.60 to \$2.39 to be void and replace Page 4 of the compliance tariff with Exhibit 3 hereto.

CONCLUSION

FOR THESE REASONS, Quadvest respectfully requests that the Examiner enter an order declaring the change of the groundwater pass through fee from \$2.60 to \$2.39 to be void and replace Page 4 of the compliance tariff with Exhibit 3 hereto.

RE: Tariff Control No. 45548 – Application of Quadvest, L.P. to Implement a Pass-Through Rate Change

NOTICE OF APPROVAL

On January 26, 2016, Quadvest, L.P. (Quadvest) filed its annual true-up report for its district pass-through gallonage fee and an application to implement a pass-through rate increase for fees imposed on the utility by several water districts, with the most significant increase coming from the San Jacinto River Authority. The rate increase was effective January 28, 2016.

On February 17, 2016, Public Utility Commission of Texas (Commission) Staff recommended that the application and notice be deemed sufficient and further that application be approved, as specified in the pleading and attached memorandum of Andrew Novak of the Commission's Water Utility Regulation Division. Quadvest mailed notice to affected customers on January 21, 2016, providing the effective date of the increase, the present calculation of customer billings, new calculation of customer billings, changes in charges to the utility for purchased water or water use fees, and the necessary required language by 16 Tex. Admin. Code § 24.21(h)(4)(b). Additionally, Quadvest provided the Commission a copy for the notice sent to customers, proof that the cost of purchased water has changed by the stated amount, and the calculation of the new rate. Commission Staff stated that Quadvest has met all of the requirements set out by the Commission's substantive rules to implement the pass-through fee increase to affected customers. New tariff pages for Quadvest that reflect the rate increase were attached to Commission Staff's recommendation.

Printed on recycled paper

EXHIBIT

Consistent with Commission Staff's recommendation, Quadvest's application and notice are sufficient and the pass-through rate as noticed on January 21, 2016 is approved. The approved tariff pages are attached to this Notice.

SIGNED AT AUSTIN, TEXAS on the 24th day of February 2016.

SECTION 1.0 – RATE SCHEDULE (CONTINUED)

TEMPORARY WATER RATE:

Unless otherwise superseded by PUC order or rule, if the Utility is ordered by a court or government body of competent jurisdiction to reduce its pumpage, production or water sales, the Utility shall be authorized to increase its approved gallonage charge according to the formula:

$$TGC = \frac{cgc + (pr)(cgc)(r)}{(1.0 - r)}$$

Where:

- TGC = temporary gallonage charge
- cgc = current gallonage charge
- r = water use reduction expressed as a decimal fraction (the pumping restriction)
- pr = percentage of revenues to be recovered expressed as a decimal fraction, for this tariff pr shall equal 0.5

To implement the Temporary Water Rate, the Utility must comply with all notice and other requirements of 16 TAC 24.21(I).

PURCHASED WATER AND/OR DISTRICT FEE PASS THROUGH CLAUSE:

Changes in fees imposed by any non-affiliated third party water supplier or underground water district having jurisdiction over the Utility shall be passed through as an adjustment to the water gallonage charge according to the following formula:

$$RVP = (E + (AP - AC)) / (JC \times AU), \text{ Where:}$$

RVP = Adjusted gallonage charge, rounded to the nearest cent

E = Estimated sum of upcoming 12 months of purchase water and groundwater conservation district costs

AP = Actual payments up to 12 months (February through January of previous year)

AC = Actual collections up to 12 months (February through January of previous year)

JC = January month end customer connections

AU = Average annual usage per connection from most recent rate case

The adjusted gallonage charge must be trued up and adjusted every twelve months.

To implement, all notice requirements must be met.

With the annual true up report adjusting the pass through for the next 12 months, the utility shall provide a five year report showing the annual and accumulated difference between pass through amounts collected from customers and amounts actually paid to the entities whose charges are included in the pass through and the formula for the estimates included in the pass through charge, the definition of all variables used in the estimate, the basis for any projections and any standard operating procedures of the utility for estimating.
