DOCKET NO. 44810  
Sharon Water Supply Corporation CCN Application  
Order NO. 4

**Staff Question 1-2 -**

How does the applicant propose the cost of \$500,000 is sufficient to service the requested area? Please provide an analysis of all necessary costs for constructing, operating, and maintaining the system as required by Section 6(A)(i) of the CCN Amendment Application.

Response:

The proposed CCN area requires approximately 30,000 linear feet of water main improvements to provide service for the area. At approximately \$16.67 per linear foot of water main, this represents sufficient funds to provide the required improvements. Furthermore, the Water Supply will maintain and operate the improvements within the WSC's existing budget. The increase in operating cost is anticipated to be negligible.

**Staff Question 1-2 -**

What is the proposed source of the \$500,000 that is needed to serve the requested area? Please provide specific grant applications or approvals.

Response:

The Water Supply will apply for a Texas Department of Agriculture STEP grant to provide materials for the proposed improvements. The WSC routinely utilizes the STEP funding source and does not anticipate funding issues or the ability to complete the work. If the grant application is not approved, improvement will be completed with private funding.

I provide these answers under Oath and signature.

Sharon W.S.C. (Print Name): Vanessa Stone

Title: General Manager

Signature: Vanessa Stone

Date: 10-14-15

Subscribed and Sworn to before me by the said Vanessa Stone on this 14<sup>th</sup> day of October, 2015.

My commission expires on the 29<sup>th</sup> day of April, 2018.
