RE: Sharon W.S.C.
Application to Amend Water CCN (10476)
PWS ID# 2500020
Upshur County, Texas.
Docket #44816 – Order No. 7

Dear Sirs:

We received Order No. 7 March 10, 2016 that there were some insufficient details that needed to be corrected on the mapping requirements. Attached are one original and seven copies for work order No. 7. (As well as 7 CD's) Below are the comments addressed:

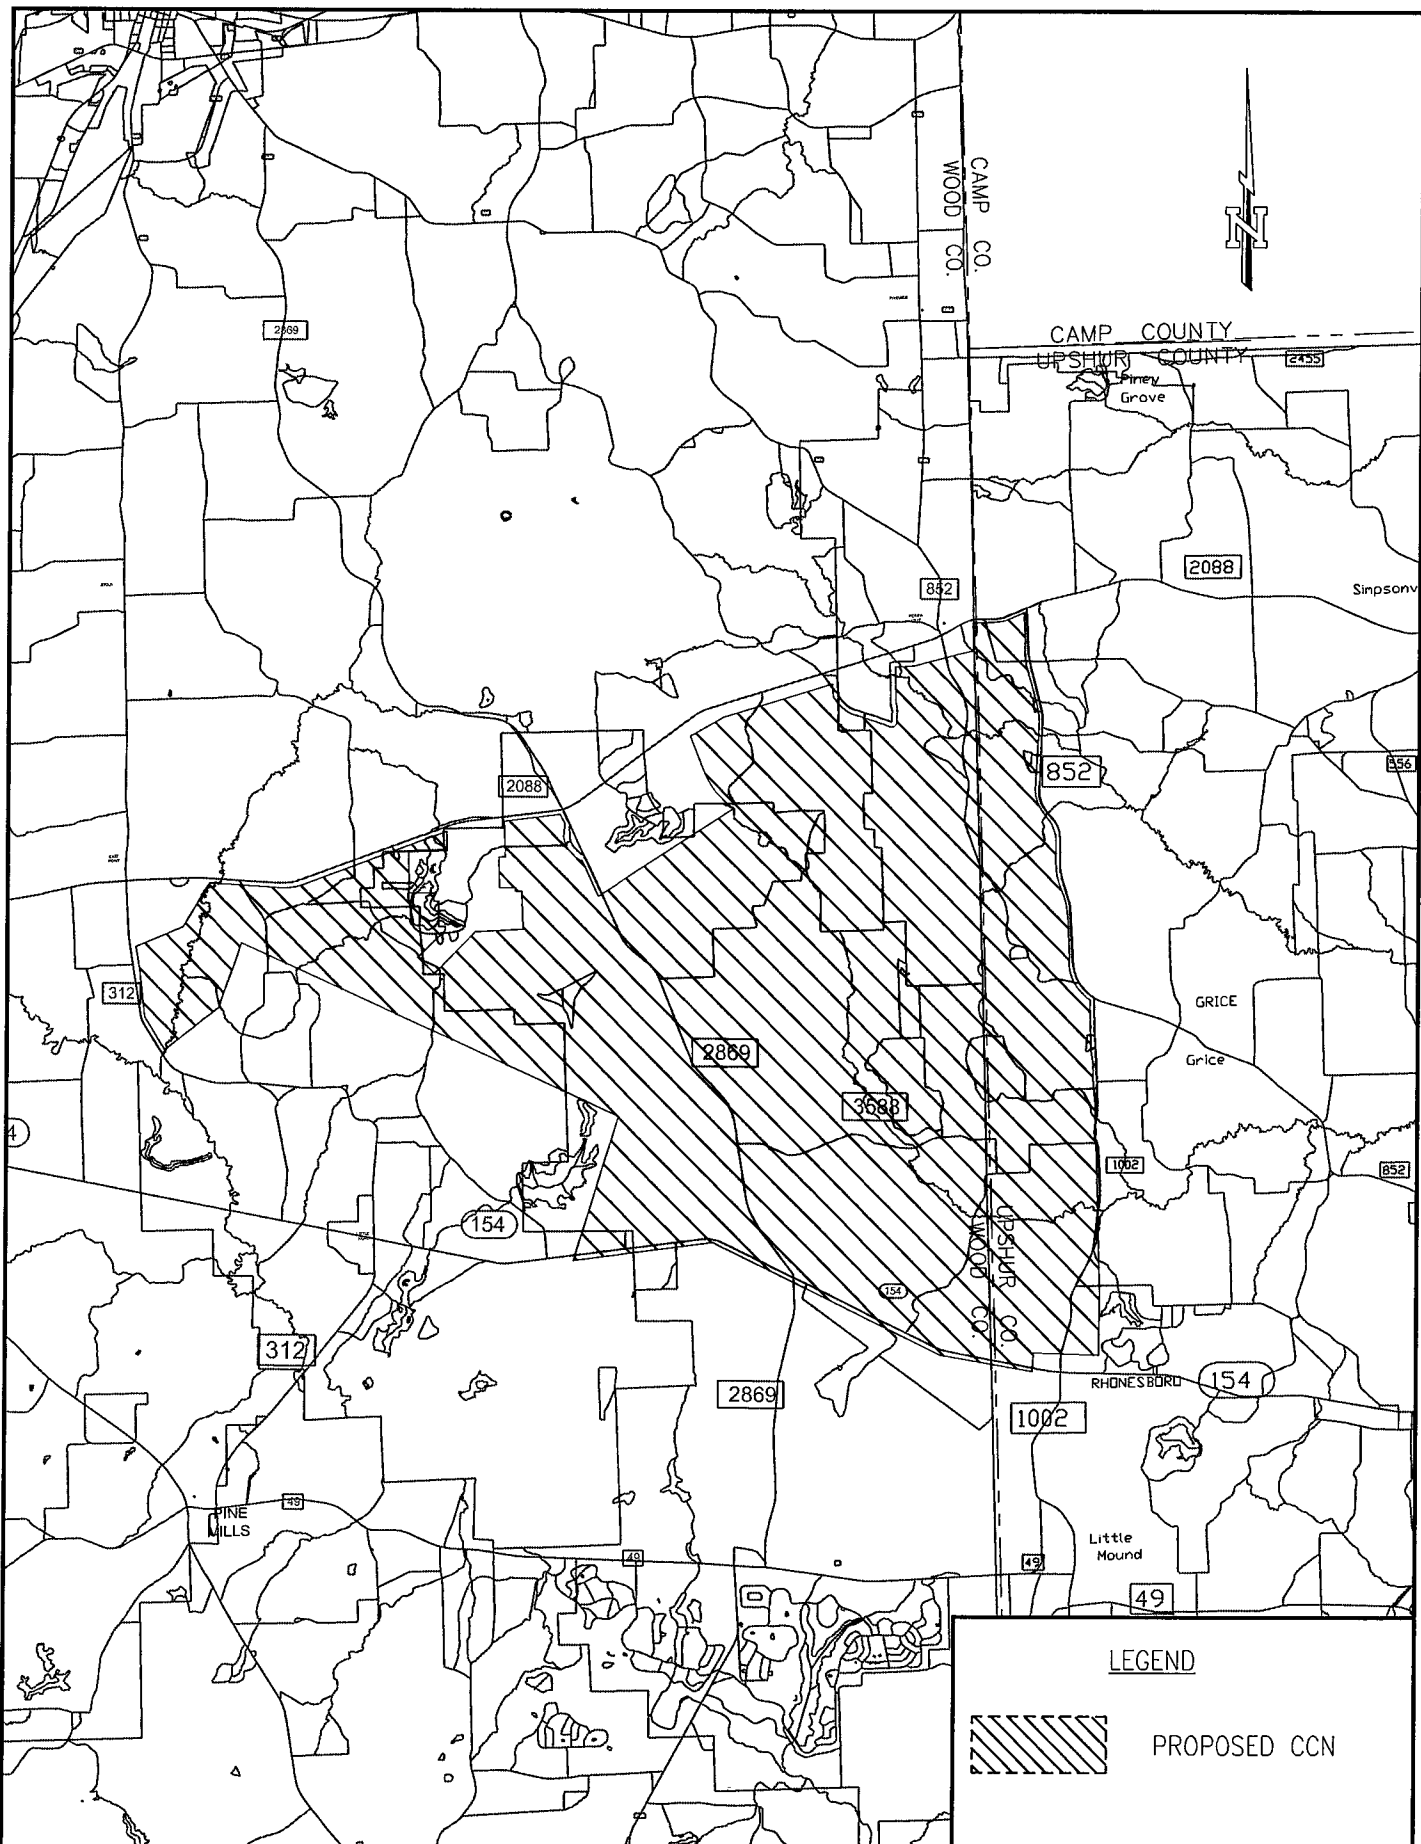

Mapping Content

- 1.) A revised small scale (general location) map only showing the proposed water service area with enough detail to locate the service area in the vicinity of the nearest town, city, or county.
 - a. **A small scale map showing a general location of the proposed service area is attached.**
- 2.) A large scale (detail) map only showing the proposed water service area with enough detail to accurately locate the service area in the vicinity of surrounding roads, streets, and highways.
 - a. **A large scale map only showing the proposed water service area with enough detail is attached.**
- 3.) Revised digital data for the proposed area in a drawing (DWG) file format on a data disk (CD). Seven copies of the CD must be enclosed. The revised digital data must remove overlaps with the Fouke WSC (10488)
 - a. **A revised CD with a DWG file is attached. The proposed service area has been updated and shows no overlapping with Fouke WSC. Sharon W.S.C. would like to incorporate the two existing water CCN facility lines into a bounded service area.**
- 4.) If the approximate total acreage for proposed area changes from 21,279, provide the updated change.
 - a. **The total acreage for the proposed service area has not changed and is still 21,279 acres.**

Please advise if you need more information.

Sincerely,
HAYES ENGINEERING, INC.

Joey Scott
Project Designer
