# Water Quality Report 2014

Each year, the City of Lubbock publishes a Water Quality Report (WQR) that summarizes information regarding water sources used, any detected contaminants and other compliance and educational information. This report is also known as a consumer confidence report (CCR) or drinking water quality report (DWQR). All contaminants measured in the City's drinking water system in 2014 are in compliance with EPA drinking water guidelines. The Annual WQR will be available for review after **June 10, 2015** in the following ways.

## Stage 1 Drought Restrictions

Landscape irrigation is allowed during two scheduled days per week. Irrigation schedules will be based on the last digit of the house's four-digit address:

0, 3, 4, or 9—Monday & Thursday  
1, 5, or 8—Tuesday & Friday  
2, 7, or 6—Wednesday & Saturday

Hand watering (physically holding the hose), drip systems, and soaker hoses used on landscape are allowed any day at any time.

Refrain from or significantly limit the use of water for decorative fountain or ponds that do not support aquatic life.

Refrain from or significantly limit the use of water to wash any kind of vehicle.

No wash down of hard surfaced areas is allowed, including without limitation, sidewalks, parking lots, gutters and patios.

No water can be used for dust control. However, water may be used for construction or to clean surfaces for painting.

Everyone connected to the City's water system must adhere to restrictions.

## Annual Water Conservation Measures

On your scheduled watering day, irrigation is not allowed during the hours of 10:00AM - 6:00PM.

Irrigate less than 1.5 inches of water per week and with no significant runoff.

Do not irrigate during precipitation events.

Planting a new landscape? Please fill out & send in a watering variance request — these can be found at [water.mylubbock.us](http://water.mylubbock.us)
