The proposed utility service areas for water and sewer are located approximately 2 miles south of downtown New Deal, Texas, and is generally bounded on the north by CR 5700; on the east by CR 3100; on the south by CR 7600; and on the west by CR 1100.

See enclosed map of the proposed service area.

The proposed water service area requested includes approximately 84,057 acres and 82,172 current customers.

The proposed sewer service area requested includes approximately 84,057 acres and 77,293 current customers.

A request for a public hearing must be in writing. You must state (1) your name, mailing address, and daytime telephone number; (2) the applicant's name, application number or another recognizable reference to this application; (3) the statement, "I/we request a public hearing"; (4) a brief description of how you or the persons you represent, would be adversely affected by the granting of the application for a CCN; and (5) your proposed adjustment to the application or CCN which would satisfy your concerns and cause you to withdraw your request for a hearing.

Persons who wish to intervene or comment should write the:

Public Utility Commission of Texas
Central Records
1701 N. Congress, P. O. Box 13326
Austin, TX 78711-3326

If no settlement is reached and an evidentiary hearing is held, the SOAH will submit a recommendation to the Commission for final decision. If an evidentiary hearing is held, it will be a legal proceeding similar to a civil trial in state district court.

If you are a landowner with a tract of land at least 25 acres or more, that is partially or wholly located within the proposed area, you may request to be excluded from the proposed area (or "opt out") by providing written notice to the Commission within (30) days from the date that notice was provided by the applicant.
