To Whom It May Concern:

This letter is a response to the recent transmission line and substation project packet sent by Brazos Electric Cooperative.

Both the Oak Grove United Methodist Church on located on FM 720 and the adjoining Oak Grove Methodist Church Cemetery also located on FM 720 have Texas Historical credentials complete with official Texas Historical markers.

These two entities received letters and packets of data about the lines' locations of the proposed Oak Point Transmission Line and Substation Project in Denton County, Texas. This project would have a negative impact on these two historic properties if said transmission line should be planned to be located within the boundaries of either the church or cemetery property.

Thank you.
